IntelliAM AI plc
('IntelliAM' or the 'Company')

Appointment of Vice President of Sales

IntelliAM AIplc(AQSE: INT),a leading provider of software that leverages the power of AI and machine learning to revolutionize the manufacturing industry, is pleased to announce that James Gayton has been appointed as Vice President of Sales.

James brings over 20 years of leadership experience in selling enterprise AI solutions into FMCG and industrial manufacturing sectors, with a strong understanding of complex buying journeys and procurement cycles. Most recently, he led the EMEA and Americas sales teams at Sales-i, where he played a pivotal role in preparing the business for its successful acquisition by SugarCRM. Under his leadership, the team delivered substantial year-on-year growth and greatly increased total contract value through larger, multi-year enterprise deals.

James also spent a year in Chicago building a high-performing sales team from the ground up, gaining hands-on experience in recruiting, onboarding, and scaling commercial operations across North America, which is important as IntelliAM begins to grow its presence on that continent. James will work across both our domestic and international operations.

IntelliAM CEO, Tom Clayton, said:"James is known for his strategic thinking, data-driven execution, and relentless focus on results. He cultivates high-performance, collaborative and empowered sales cultures which IntelliAM is committed to fostering. We are pleased to welcome James to the Company."
