Riley DSO Project - Appeal Lodged to Federal Court Judgment

Venture Minerals Limited **(ASX code: VMS)**, would like to inform shareholders that the favourable decision recently received on the judicial review to the Commonwealth Government's approval of the Riley Direct Shipping Ore (DSO) Project has now been appealed. In May 2014 Justice Tracey dismissed all four grounds of the appeal and upheld the environmental approval given by the previous Federal Minister in August 2013.

Venture is currently seeking legal advice as to the impacts of this further appeal and will update shareholders in due course.

Yours sincerely,

Hamish Halliday
Managing Director
