Cirralto and Invigo enter into strategic Partnership Agreement

The Board of Cirralto Limited (ASX:CRO) ("CRO", "Cirralto" or the "Company") is pleased to announce the execution of a Partnership and Revenue Sharing Agreement with Sydney based fintech company, Invigo Pty Ltd (Invigo).

Invigo's fintech platform offers businesses an integrated supply chain funding solution aimed at accelerating the settlement of payments between buyers and their suppliers. Invigo's platform is targeted at customers with a similar business profile to Cirralto's customers and equally Cirralto's vertical market technology solutions are directly applicable to Invigo's customers.

Given the synergistic nature of the customers of each party, Cirralto and Invigo have agreed a joint approach in sharing channels. This will enable customers of each business to access an integrated platform utilising Cirralto's vertical market technology solutions, and access to Invigo's early payment facility or extended payment of invoices financing facility.

The first phase of development work to integrate the platforms is expected to be completed by October 2019 which will result in Cirralto being able to offer modernisation and vertical market technology solutions to Invigo customers and upgrading the Cirralto customer base with Invigo products and services.

The Company expects this partnership will add transactional revenue streams associated with early payments and debtor financing to its current software as a service revenue.

Based on preliminary modelling of each of Cirralto's and Invigo's customer base and transactional volume and value, it is anticipated that the Invigo product suite has the potential to increase Cirralto's monthly average revenue per customer by between 10% and 100%.

Mr Adrian Floate said "The Invigo partnership is directly aligned to diversifying our revenue segments and increasing our total share of our customers' transactional wallet. We expect the partnership will help us grow both our customer base and average revenue per customer and we are really excited with the addition of Invigo's fintech services."

The Company will continue to update the market on its operations and in particular an official launch date for its payment business.
