8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Net operating cash outflows are expected to decrease as major projects during the period reported have been completed, or are in the final stages with a significant majority of expenditure & cash outflow incurred (i.e. JORC resource update & DFS).

8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
Answer:	The Company has taken steps to raise further cash to fund operations, having commenced discussions with debt funders and other investors. The recent granting of the mining right at the Witwatersrand Basin Project (South Africa), combined with the Definitive Feasibility Study on the Qala Shallows nearing completion, has resulted in significant investor interest in WWI which gives the Company a high level of confidence the steps taken will be successful.
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	Yes. Major exploration and feasibility expenditure has been reduced which enables the Company to meet current commitments. Steps taken to fund WWI's operations are expected to sustain business objectives, mainly the commissioning of mine development at the WBP and advancing exploration at the Mt Cecelia project.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
