About Equipmake

Equipmake is a UK-based industrial technology company specialising in the engineering, development and production of electrification products to meet the needs of the automotive and other sectors in support of the transition from fossil-fuelled to zero-emission drivetrains.

Equipmake is a leader in high performance technologically advanced electric motors, inverters and complete zero-emission electric drivetrains and power electronic systems. Equipmake has developed a vertically integrated solution providing fully bespoke solutions to its customers. The Company is focussed on accelerating traction with OEM and Tier 1 suppliers in relation to higher margin component and drivetrain supply under long-term growth contracts.

Key differentiators of the Company offerings are its advanced technology and performance, reliability and adherence to ASIL-D[1] functional safety. Equipmake's advanced motor and inverter technology, featuring ASIL-D compliance, are designed to customers' highest functional safety standards. With decades of experience in electric drivetrain integration and a dedicated prototype vehicle testing facility, Equipmake can significantly accelerate product development for customers.

[1] Automotive Safety Integrity Level ("ASIL") is a risk classification scheme defined by the ISO 26262 - Functional Safety for Road Vehicles standard and is a critical requirement for road vehicles. Of the four ASILs identified by the standard, ASIL-D dictates the highest integrity requirements on the product, which require exceptional rigour in their development.
