IntelliAM AI plc

Memorandum of Understanding signed with SkyIO Inc

SkyIO to act as IntelliAM's agent and integrator in the US industrial automation market

IntelliAM AI plc (AQSE: INT), the industrial software company applying artificial intelligence and machine learning to improve the productivity, reliability and sustainability of manufacturing operations, is pleased to announce it has signed a Memorandum of Understanding with SkyIO Inc, the South Carolina-based provider of full spectrum industrial automation and integration capabilities.

It is proposed that SkyIO will act as an agent and integrator for IntelliAM in identifying, introducing and supporting customers for IntelliAM 53, Decipher and related IntelliAM offerings. The relationship is already showing traction with SkyIO also proposing to provide local customer engagement, implementation and support services for an identified commercial opportunity.

Tom Clayton, Chief Executive Officer of IntelliAM, commented:

"We are delighted to have signed this Memorandum of Understanding with one of the leading integrators in the US manufacturing automation and systems integration market. It is another important step in our strategy to build our presence and customer base in the North American market."

"SkyIO is very well placed for the Company's integration needs and already licenses and partners with many of the systems providers IntelliAM use as enablers. This allows data to be brought into the landing zone within the IntelliAM cloud environment in a consistent and unified way."

"It is expected that following the MoU and initial collaborations arising from SkyIO's customer base, the parties will work together to develop a broader partnership agreement."
