Completion of Placement for $1m

12 February 2024 Brisbane, Australia: The Calmer Co. International Limited (ASX:CCO), a health and wellness company focussing on natural products that promote calmness advises shareholders that it has completed a fully subcribed placement of $1m to institutional and sophisticated investors.

CEO, Anthony Noble said "Our rapidly growing ecommerce sales and new products launching in Coles will require the company to both increase the level of inventory we are holding in Australia and the USA and increase the output from our Navua Processing Facility. The funds raised in this placement will allow us to upgrade or duplicate key processing steps including in line powder filling lines, high throughput millers and a Conveyer Convection Drying system that will complement our existing heat pump dryers. These upgrades and the additional working capital will allow us to grow production by around 4x over 2024."

"We are now back in stock with all of our products on www.fijikava.com.au, and will begin to build additional inventory in the USA as our www.fijikava.com shopify channel begins to ramp up alongside our existing www.amazon.com channel there."
