ALTONA RARE EARTHS PLC
("Altona" or "the Company"

Investor Presentation

Altona (LSE: REE), a resource exploration and development company focused on Rare Earths in Africa, announces that Cedric Simonet, Chief Executive Officer, will host an investor presentation and Q&A session to provide an operational and strategic update on Wednesday, 12 July 2023 at 10:00 (BST) via the Investor Meet Company platform.

The presentation is open to all existing and potential shareholders. Investors can sign up to Investor Meet Company for free on:
https://www.investormeetcompany.com/investor/companies

Investors who already follow Altona on the Investor Meet Company platform will automatically be invited.

- Investors are encouraged to submit questions pre-event via the "Ask a Question" function located on the Investor Meet Company dashboard up until 9 am the day before the meeting or at any time during the live presentation.
- Whilst the Company may not be in a position to answer every question it receives, it will address the most prominent within the confines of information already disclosed to the market through regulatory notifications.
- Responses to the Q&A will be published at the earliest opportunity on the Investor Meet Company platform following the presentation.
- Investor feedback can also be submitted directly to management post the event to ensure the Company can understand the views of all elements of its shareholder base.

About Altona Rare Earths Plc

Altona is a resource exploration and development company focused on Rare Earths in Africa. The Company is listed on the Main Market of the London Stock Exchange.

Rare Earths are a group of 17 chemical elements, many of which are critical to the World's on-going transition from carbon-based to renewable energies, and to the defence and communication sectors.

The Company currently focuses on the development of Monte Muambe, its flagship Magnet Rare Earths Project, located in Northwest Mozambique. The project was acquired in June 2021, and the Company has so far drilled over 7,000m, to support its maiden JORC Mineral Resource Statement which will be published in the Third Quarter of 2023.

Altona continues to take advantage of its position in Africa to assess other possible Rare Earths opportunities on the Continent.
