9 June 2025

Bluebird Mining Ventures Ltd
('Bluebird' or 'the Company')

Further re: Strategic Update

Bluebird Mining Ventures Ltd., a pan Asian gold project development company, is pleased to announce further progress regarding the monetisation of the Company's flagship Philippine project.

The Company announced on the 6 May 2025 the renewal of the permit of the Company's Philippine project and further, on 15 May 2025, regarding the potential realization of value from this project. Furthermore, the Company announced on 5 June 2025 that "discussions have now progressed meaningfully with the Philippine partner to an advanced stage whereby the Company now expects to conclude an agreement within a matter of weeks".

The framework of an agreement has now been given to the Company's lawyers to draft ready for execution expected on or around the week commencing 16 June 2025. This framework will allow for the company to retain a meaningful net profit interest as well being able to capture 'bonus revenues' based on certain prevailing gold prices at the time. If successfully concluded, the Company will have no further expenditure commitments in the development of the project. Whilst the Company is confident that an agreement will be concluded there can be no guarantee of such.

The Company expects to make further announcements in due course related to the complementary "digital gold" strategy that was announced last week. This first transaction in the Philippines, when concluded, will be the template for the gold "streaming" avenue that the Company is now to pursue married with the Bitcoin in Treasury strategy.

Bluebird Executive Director and Interim CEO Aidan Bishop said,"I am very pleased after many years to see the first real monetisation event for our shareholders now coming to imminent conclusion. Successfully concluding this agreement at our flagship Philippine project will be a significant milestone in creating value without assuming any downside risk. In addition, discussions around our 'digital gold' strategy are also advancing on numerous fronts and I am hopeful of being able to provide further market updates in short order of real tangible, rapid progression of this complementary strategy. I believe that Bluebird sits on the threshold of a new rebirth and very exciting future"
