IntelliAM AI Plc
('IntelliAM' or the 'Company')

Strategic Partnership Agreement in USA
Advanced AI + dual branded hardware

IntelliAM AI plc (AQSE: INT), the software company leveraging the power of AI and machine learning in the manufacturing industry, announces that it has entered intoa formal agreement with US-based hardware innovatorConnection Technology Center Inc ("CTC"), deepening our collaborative partnership in the co-development of cutting-edge industrial sensing solutions, which includes the manufacturing of dual branded hardware.

Together, IntelliAM and CTC have been working to integrate world-class dual-branded sensory hardware directly to IntelliAM's AI-powered platform-bridging critical data gaps and enabling richer, real-time insights for asset performance and predictive maintenance.

This agreement strengthens our joint commitment to bringing these advanced capabilities to the US industrial market. IntelliAM carefully selected CTC as a partner given their high-quality products, fast lead times and best-in-class warranties, and will benefit from the lead generation opportunities to scale faster in the USA. With a focus on quality products and scalable deployment, we aim to provide manufacturers and asset-intensive industries with transformative tools that connect data and provide critical AI insights.

We look forward to expanding the reach of our combined end-to-end solution and helping our customers achieve measurable outcomes through smarter, data-driven decision-making.

The agreement also supports IntelliAM sales in the USA, backed by domestic sensor supply provided by CTC as an authorized IntelliAM partner.

Tom Clayton, CEO of IntelliAM AI, said:"Our partnership with CTC represents a critical step forward in delivering our vision. By combining our AI-driven insights platform with dual branded advanced sensory technology, we are enabling a new level of data completeness and operational visibility for our customers.

"This agreement not only formalises a strong existing collaboration but also positions us to scale in the US market, where the demand for actionable, real-time insights continues to grow. We are excited to bring this joint solution to industry leaders who are ready to unlock the full potential of their data."

Todd Cook, President and CEO of CTC, added: "This agreement marks a major milestone in bringing our jointly developed technology to the US market. We are proud to support IntelliAM in delivering data-driven solutions that close the gap between physical assets and digital intelligence. Together, we are building tools that will help shape the future of industrial performance."

About IntelliAM AI:

IntelliAM AI plc is a software company leveraging the power of AI and machine learning to transform productivity in the manufacturing and engineering sectors. The IntelliAM platform harnesses vast amounts of data from clients' machines and operational systems to provide actionable insights, enhancing productivity, reliability, supply-chain optimization, energy efficiency, and sustainability.

AboutConnection Technology Center Inc

CTC stands out for the highest quality vibration analysis products on the market, with the fastest lead times and best-in-class warranties. CTC's product portfolio spans from accelerometers and wireless sensors to all the necessary accessories - ideal for industrial predictive maintenance programs.
