Great Southern Copper plc
("GSC" or the "Company")

Result of AGM

Great Southern Copper plc (LSE: GSCU), the Company focused on copper-gold exploration in Chile, announces that at its Annual General Meeting ("AGM"), held earlier today, all resolutions were duly passed.

An updated corporate presentation will shortly be available on the Company's website:
https://gscplc.com/investors/documents-and-reports

Details of the proxy voting results, which should be read alongside the Notice of AGM, are below:

Resolution	Votes for		Votes against		Votes withheld	Total proxy votes
	No. of votes	*% of votes cast*	*No. of votes*	*% of votes cast*	*No. of votes*	
1	22,648,984	100	0	0	0	22,648,984
2	22,648,984	100	0	0	0	22,648,984
3	22,648,984	100	0	0	0	22,648,984

About Great Southern Copper

Great Southern Copper is a mineral exploration company focused on copper-gold deposits in Chile. The Company has the option to acquire rights to 100% of two projects that are prospective for large porphyry style copper-gold deposits in the underexplored coastal belt of Chile, a globally significant mining jurisdiction and the world's largest copper producer.

The two projects comprise the San Lorenzo Project, northeast of the coastal town of La Serena in northern Chile, and the Especularita Project located approximately 170km to the south of the San Lorenzo project. The two early-stage Cu-Au projects are within the same metallogenic belt as major coastal producing operations including Teck's Andacollo copper and gold mine. Significant historical small-scale and artisanal workings for both copper and gold are readily evident in both exploration project areas.

Great Southern Copper is strategically positioned to support the global market for copper, a key metal in the clean energy transition around the world. The Company is planning an exploration and evaluation two-year work programme for the copper-gold projects, targeting principally large tonnage, low to medium grade porphyry style Cu-Au deposits.
