Steve Brockhurst
Estrella Resources Limited – Company Secretary

About Estrella Resources.

Estrella Resources is a metals exploration company based in Perth, Western Australia. The Company holds Lithium exploration and mining rights agreements with Apollo Phoenix Resources which cover 129km² of mineral tenements in an emerging world Class LCT pegmatite province. The Company's major project, the Mt Edwards Lithium Project (MELP), is situated 40km south of the Mt Marion Lithium mine which is currently in production (Ganfeng, Mineral Resources and Neometals). The Company is actively looking to increase its asset base and activities.
