MGM Wireless Achieves Successful First Production Run Of New Smartwatch

Highlights

- Successful completion of first production run of MGM's new smartwatch 'Spacetalk'
- Spacetalk allow children and parents two-way 3G communication and alerts for when children leave designated "safe areas"
- Online sales of Spacetalk will be through MGM's AllMyTribe website and are expected to commence on 3 October

Wednesday 20 September 2017 – Technology company MGM Wireless Limited (ASX:MWR) ("MGM" or "the Company") is pleased to announce the successful completion of the first production run of its Spacetalk children's 3G GPS smartwatch, with delivery to Australia expected later this month.

The device is the first Australian and one of the first worldwide 3G smartwatch phone and GPS tracker's designed specifically for children and operates with the AllMyTribe child safety and Internet of Things (IoT) platform.

Spacetalk allows parents and children to be in constant contact via two-way 3G communication and features GPS tracking and alerts so that parents are notified whenever children leave designated "safe spaces" such as school or home.

Online sales of Spacetalk are anticipated to commence on 3 October 2017 through the Company's own website, with wider retail distribution targeted in time for the peak Christmas and back to school retail sales period.

Entitlement Offer

The Company reminds shareholders that the offer period for the Entitlement Offer announced on 30 August 2017 closes at 5.00 pm (Adelaide time) on 26 September 2017. Proceeds from the Entitlement Offer will be used to increase the funds currently available to promote sales of the first manufacturing run of the smartwatches.

MGM Wireless CEO Mark Fortunatow: "The high quality of our first production run of the Spacetalk GPS smartwatch phone is marvellous. We are delighted with the finish and superior technical performance of the final product and are excited about the upcoming product launch in October.

Spacetalk is the culmination of almost three years of hard work by MGM and we believe that with our proven track record in school communication solutions, this device is ideally placed to improve student safety and give parents greater peace of mind."

About MGM Wireless
MGM Wireless Limited (ASX:MWR) is a technology company designing, developing and commercialising Internet of Things (IoT) devices for children, and software for school communication and student absence management. The Company's All My Tribe division has developed a wearable device called Spacetalk which allows two-way 3G communication, GPS tracking and alerts parents whenever children leave designated safe spaces such as school or the home. MGM Wireless built its track record with school communication solutions after creating the world's first SMS based Automated Student Absence Notification Solution. It is recognised as a global leader and pioneer in socially responsible and technology-enabled school communications. Used by over 1,100 schools and 1.6 million parents, the Company's multichannel school communication solutions empower schools to effectively communicate to parents and caregivers through SMS, mobile in-app and other means to improve student attendance and safety, help schools reduce operating costs and increasing parent engagement. MGM Wireless products include student absence notifications 'messageyou', absence analytics software 'Watchlists', school news and messaging app 'School Star', a content management and messaging platform for mobile school communication called Outreach+, and student attendance management solution 'RollMarker'.
