Fulcrum Metals plc
("Fulcrum" or the "Company" or the "Group")

New Corporate Presentation and

Participation at the CME Conference

Fulcrum Metals plc (AIM: FMET), a technology led company focused on the recovery of precious metals from mine tailings in Canada, is pleased to announce that an updated corporate presentation has been published on the Company's website.

The updated presentation sets out a focussed strategy to transform the Company into a near term gold, precious and critical minerals producer following the milestone signing of a Master Licence Agreement with Extrakt Process Solutions LLC, for the exclusive use of its cyanide free breakthrough technology for gold mine waste (tailings) across Canada's prolific Timmins and Kirkland Lake gold camps, Ontario.

The new corporate presentation can be viewed at: https://fulcrummetals.com/investors/research-reports-presentations/.

The Company also announces that Ryan Mee (CEO) and Mitchell Smith (Independent Non-Executive Chairman), will be attending theCanadianMining Expo("CME") on 3-5 June at the McIntrye Complex in Timmins, Ontario to continue engagements with government departments, communities and other Timmins and Kirkland Lake industry professionals and companies.

Notes to Editors

About Fulcrum Metals PLC

Fulcrum Metals PLC is an AIM quoted technology led natural resources company focused on recovery of precious metals from mine tailings (previously milled and processed ore) in Canada using environmentally friendly leaching technology developed by Extrakt Process Solutions LLC and its associates (together "Extrakt"). The Company's projects are the tailing sites of the former Teck-Hughes and Sylvanite gold mines, located at the Kirkland Lake region in Ontario. In addition, the Company has interests in a portfolio of highly prospective mineral exploration and development projects in both Ontario and Saskatchewan Canada.

Fulcrum have entered into a Master Licence Agreement (MLA) with Extrakt for the exclusive licence rights using their proven technology on legacy gold mine waste sites over the mining districts of Timmins and Kirkland Lake which includes Fulcrum's Teck Hughes and Sylvanite projects. Fulcrum are developing the Teck Hughes and Sylvanite tailing sites to unlock the significant mineral wealth and delivering a scalable concept across two of Canada's biggest gold camps with a history of over 110 million ounces of gold production and more than 70 mine waste sites.

About Reach announcements

This is a Reach announcement. Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases into the public domain. Information required to be notified under the AIM Rules for Companies, Market Abuse Regulation or other regulation would be disseminated as an RNS regulatory announcement and not on Reach.
