ABOUT JAXSTA

Jaxsta is the music industry's global music technology company using data to solve an industry-wide need for official data. Digital music has seen an end to the printed "jacket" that once came with a physical CD or LP – where music enthusiasts and professionals would look to discover the names of those responsible for the music they love. The go-to authoritative source of music information, Jaxsta is collecting music metadata from major and independent record labels, publishers, royalty agencies and industry associations across the globe. The data is de-duplicated, cross-referenced, deep-linked and then made available online within a multi-functional, ever-evolving platform.

The Company's core platform, Jaxsta.com, is live and its B2B subscription-based service, Jaxsta Pro^{Beta}, launched in November 2019. Jaxsta Pro^{Beta} includes features only available to paid users. The Company's head office is in Sydney, with representatives in New York, London and Los Angeles.
