About Tesoro Resources
Tesoro Resources Limited was established with a strategy of acquiring, exploring and developing mining projects in the Coastal Cordillera region of Chile. The Coastal Cordillera region is host to multiple world class copper and gold mines, has well established infrastructure, service providers and an experienced mining workforce. Large areas of the Coastal Cordillera remain unexplored due to the unconsolidated nature of mining concession ownership, but Tesoro, via its in-country network and experience has been able secure rights to two district scale gold projects in-line with the Company's strategy. Tesoro has rights to acquire up to 80% of the El Zorro Gold Project and 100% of the Espina Gold Project
