4th February 2014

ASX ANNOUNCEMENT

SENETAS CORPORATION LIMITED: MARKET UPDATE

The Board of Senetas Corporation Limited (ASX:SEN) (Senetas) provides the following market guidance in relation to its financial results for the half year ended 31 December 2013.

The company auditors have almost completed the half year review and the company expects to have made a before tax profit of between $250,000 & $350,000 for the six months to 31 December 2013.

The performance is a significant improvement on the company's loss before tax of $1,519,375 for the half year ended 31 December 2012.

Further information in relation to the half year results for the half year ended 31 December 2013 will be released with the Appendix 4D, Half Year Report and announcement on or before Friday, 28 February 2014.

In line with the company's previous guidance provided in August 2013, the company expects to be profitable for the 2014 financial year.

About Senetas Corporation Limited

Senetas is an Australian listed public company (ASX: SEN), specialising in high-speed network data encryption - protecting data in motion without compromising network performance.

Senetas high-speed data encryptors are the world's only triple-certified products of their type - Common Criteria (Australia and international), FIPS (US) and CAPS (UK) certifications – certified as suitable for government and defence use. Senetas "defence-grade" encryptors protect much of the world's most sensitive data.

Senetas high-speed encryptors protect: government information and secrets; Cloud Computing services; defence and military information; commercially sensitive intellectual property; business and financial data; banking transactions; datacentre traffic; high volume CCTV networks; and critical industrial and infrastructure control systems.

Senetas uniquely designs, develops and manufactures in Australia. Senetas high-speed encryptors have market-leading performance characteristics and are trusted to protect data in more than 25 countries.

These customers include highly secure organisations such as the US defence forces and Swiss banks.
