The CTN Investment Portfolio held 69 securities at 30 June 2014. In addition to this CTN owns 100% of fund manager Contango Asset Management Limited representing 6% of CTN's Net Tangible Assets.

NEW LOOK NTA STATEMENT

CTN is well respected for the speed in which it releases its monthly NTA to the market, as well as the quality of information it provides to shareholders.

While ASX regulations for Listed Investment Companies require NTAs to be released by the 14th of each month, CTN believes its shareholders and investors should receive this information as soon as possible to enable them to make better informed decisions about their investments.

CTN is often the first LIC releasing an NTA value- typically doing so on the 1st or 2nd business day of each month.

In the interest of releasing this information to shareholders even sooner, and also in providing more information more often, CTN has enhanced the timing and content of its monthly shareholder releases.

The monthly NTA now contains the NTA, Asset Composition and Top-20 stock holding information - as set out on page 1 of this document. This change has enabled the NTA document to reach the market as quickly as possible.

MID MONTH PORTFOLIO UPDATE

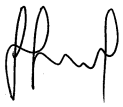

In addition to this, CTN now provides a mid-month portfolio update to the market. It releases this document through the ASX and then places this on the CTN web site.

This portfolio update provides a commentary about the performance of the underlying investment portfolio as well as comments and observations from the portfolio managers and other important information.

Shareholders should either keep an eye on the ASX or the CTN web site to see when the mid month update is released to the market.

The CTN app is one way in which shareholders can be automatically alerted when these documents have been loaded to the CTN web site. This is available for free download from Google Play or iTunes.
