

ASX Release

10 December 2020

Cleansing Notice under 708A(5)(e) of the Corporations Act 2001 (Cth)

Amaero International Limited (**ASX:3DA**) ("**Amaero**" or the "**Company**") gives notice under section 708A(5)(e) of the Corporations Act 2001 (Cth) ("**the Act**") in compliance with the requirements of section 708A(6) of the Act as follows:

- (a) On 10 December 2020, the Company issued 16,490,909 fully paid ordinary shares without disclosure under Part 6D.2 of the Act.
- (b) As at the date of the Notice, the Company has complied with:
 - (i) the provisions of Chapter 2M of the Act as they apply to the Company; and
 - (ii) the provisions of section 674 of the Act.
- (c) The Company is not aware of any other information required to be disclosed for the purposes of section 708(6)(e) of the Act, being information:
 - (i) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
 - (ii) that investors and their professional advisors would reasonably require for the purposes of making an informed assessment of:
 - the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - the rights and liabilities attaching to the ordinary shares of the Company.

An Appendix 2A with respect to the above issue has been lodged with the ASX.

This ASX release is approved by the Board of Amaero International Limited.

About Amaero International Limited:

Amaero International Limited is an Australian-based company that manufactures large format complex components in metal with laser-based additive manufacturing processes, commonly known as 3D printing.

The principal activity of Amaero is the provision of end to end additive manufacturing solutions in terms of services, equipment and technology to its key clients in the Aviation Defence and Space sectors and the Tool and Die industry.

Amaero has worked with many of the world's leading manufacturers of aerospace and defence products in both an R&D and manufacturing capability and has a demonstrated ability to deliver aviation and military specification 3D printed alloy critical operation components.

Amaero was established with the support of Monash University in 2013 to take advantage of commercial opportunities identified by the Monash Centre for Additive Manufacturing (MCAM). Amaero is co-located with MCAM in Melbourne Australia. It operates two additional facilities, in Adelaide, South Australia, and El Segundo, California, USA.
