## Sovereign Industrial Capability Priority Grant

Australian cable manufacturer, Bambach Wires & Cables Pty Ltd ("Bambach" or "Company"), a 100% owned subsidiary of Energy Technologies (ASX: EGY) is pleased to announce that it has been awarded a Sovereign Industrial Capability Priority Grant to improve Australian manufacturing capability to support the Continuous Shipbuilding Program which includes rolling submarine acquisition; land combat, protected vehicles and technology upgrade.

It will enable the company to enhance its existing manufacturing capability to manufacture of small, medium, and large diameter low voltage silicone copper cables essential for use in submarine and shipbuilding.

The project has an estimated cost of \$1.74m of which the Federal Government will contribute up to \$1.34m.

The current Bambach facility in Rosedale has sufficient space to house the new equipment and construction will start immediately.

Alf Chown, Energy Technologies CEO, commented, "It is an exciting time for Bambach, with a great deal of the commissioning of Rosedale now complete and the move into larger Government contract work through the timely installation of the Silicon manufacturing equipment, the company is looking at a bright future. We would also like to thank the Federal Government for the professional manner in which they have worked with us and the support they have shown to Australian manufacturing."
