

Emyria adds second clinic in Perth ahead of EMD-003 registration trials

Highlights:

- Emyria has added a **second suite of Emerald Clinics consulting rooms in Perth** on the back of continued appointment growth nationally
- Potential to double capacity of Perth and builds on recent expansion in Melbourne
- The new clinic is co-located with site of **West Leederville Private Hospital**
- Additional clinical rooms will also help support the pivotal clinical trials, currently in planning, in support of the registration of **EMD-003**

Emyria Limited (ASX: EMD) (Emyria or the Company), a data-backed drug development company, is pleased to announce the expansion of its clinical service subsidiary - Emerald Clinics - with the addition of a second consulting suite in Perth. The expansion comes off the back of record patient appointments in January 2021 and a recently announced expansion in Victoria. (See ASX release 09 Feb 21)

Meeting growing patient demand and adding capacity for trials

The new Perth suite has capacity for 4 additional consulting rooms and is co-located within the site of West Leederville Private Hospital complex.

The Perth expansion will boost clinical capacity in WA and support Emyria to:

- Improve patient access to Emerald Clinics services
- Conduct pivotal clinical trials currently being planned for Emyria's first drug development program, EMD-003, targeting unmet needs in mental health and seeking registration as a Schedule 3 medicine. (See ASX release 05 Jan 21)
- Deliver on a recently awarded grant from the WA Government. The grant award of \$880,000 was won with research partner, the University of Western Australia. Emyria's technology and team will play a lead role monitoring the clinical and mental health of vulnerable patients remotely (see ASX release 05 Feb 21)

West Leederville site

Emyria's Managing Director, Dr Michael Winlo, said:

"Western Australia was the first Emerald Clinics location. Demand for our services from both patients and referring doctors has grown every month since we opened. We anticipate this expansion will allow us to improve our waiting times and see more patients which, in turn, improves our proprietary data asset (Emyria Data)."

Insights from Emyria Data is now informing the design and planning of pivotal drug registration clinical trials for our first drug program, EMD-003 - a cannabinoid medicine targeting unmet needs in mental health.

The additional clinical capacity in Perth also allows us to support a wider range of clinical trials in different indications as well as help us deliver on the recently awarded Future Health Research and Innovation Grant involving our TGA-registered remote monitoring system."

The second Perth Emerald Clinics location is at - 2 McCourt Street, West Leederville.

This announcement has been approved and authorised for release by the Managing Director of Emyria Limited.
