CHAIRMAN'S REPORT

Dear Fellow Shareholder

I am pleased to present the Chairman's Report for Jindalee Resources Limited for 2018.

The current financial year has been a critical one for the Company as it seeks to reposition itself as a more active generator of projects which have the potential to increase shareholder value through targeted and efficient exploration and development activity.

In July we appointed Chief Executive Officer Pip Darvall to the position of Managing Director. Pip brings new perspectives to the Board and was instrumental in the development and implementation of our United States lithium strategy, on which more is said below.

In my letter enclosing the 2017 Annual Report, I suggested that we may look at the 2016 financial year as the low point for the junior listed resource sector. In many ways that has proven to be the case, with investor interest returning to that sector. However that interest remains fairly selective in terms of commodity exposure.

One group of commodities has been the focus of most excitement over the past 12 months or so: the so-called "battery metals" of nickel, lithium, graphite and cobalt. With the accelerating transition to a low(er) carbon global economy, particularly the move towards the electrification of transportation, prices for the battery metals have fared well, increasing over the 2018 financial year, although that increase has not always been linear or without interruption. Analysts who have on many occasions called the "top" of this market have so far been proven wrong.

Regardless of any short term gyrations in prices, Jindalee believes that the battery metals have established themselves as legitimate (in the sense of being investible) commodities and that, despite the potential for disruptive innovations in battery technology, this is unlikely to change in over the medium term.

Our confidence in the outlook for battery metals encouraged us to explore for potentially competitive sources of lithium in what we expect will become a key market for battery metals producers: the United States. With the Trump administration increasingly focussed on an "America first" approach to industry policy, the political environment (at least at a Federal level) in the US is highly supportive of the development of new sources of domestic supply for critical minerals, including the battery metals.

This strategy has led us to peg two sediment hosted lithium projects in Nevada and Oregon. In our view, sediment hosted lithium deposits represent a potentially exciting new source of lithium for carbonate production and are by their nature well suited to rapid advancement by smaller companies, relative to hard rock and brine deposits.

Subsequent to year end Jindalee has completed an initial drill program at our McDermitt project and assays are awaited. The goals of the program were to obtain an understanding of the potential grade and scale of the lithium bearing stratigraphy identified in our previous field program.

Over the financial year, we have continued, by a series of opportunistic acquisitions, to consolidate our position in the Widgiemooltha region of Western Australia, an area prospective for a range of minerals including gold and nickel. Jindalee now has one of the largest landholdings in the region, and we are actively considering means to leverage this position for the maximum advantage of our shareholders.

We have adopted a disciplined approach to the management of what had become an extensive tenement portfolio through Western Australia, taking the opportunity to monetise our interests where they are better suited to development by third parties. Where possible, we have elected to retain a direct interest in the project, as well as ongoing exposure through a contingent payment or royalty structure, or by acquiring listed scrip which can then be monetised (subject to market conditions) at a time of our choosing.

We have also acquired a greater understanding of the potential of the Prospect Ridge Magnesite project in North-western Tasmania through completion of metallurgical testwork which has shown the potential for the deposit to produce a high-grade product suitable for industrial uses. Although expenditure on the project has been modest to date, we have reached a point where we believe it is sensible to seek a partner for the next phase of development, and hope to make progress in this respect in the current financial year.

After a protracted downturn the uranium price is slowly recovering, and with it investor interest in the sector, and we continue to actively investigate opportunities for the potential monetisation of Jindalee's position in Energy Metals Limited (ASX: EME).

Once again I would like to thank key management team members Pip Darvall, Lindsay Dudfield and Trish Farr for their hard work and focus over the past year. And as always, we are indebted to our loyal and patient shareholder base. With the development of our US lithium strategy, we believe we are as well placed as ever in the Company's history to deliver a step change in value for the benefit of our shareholders.

Justin Mannolini
Non-Executive Chairman

CREATING WEALTH FOR SHAREHOLDERS

HIGHLIGHTS

- Multi-commodity exposure in premier mining jurisdictions[1]
- Well funded[2] with a tight capital structure[3]
- Experienced and motivated management[4]
- Track record of wealth creation[5]
- Systematic, disciplined approach to exploration and risk management[6]

1 Jindalee offers shareholders exposure to gold, base metals, magnesite, diamonds, iron ore and uranium in districts highly rated by the internationally regarded Fraser Institute.

2 At 30 June 2018 Jindalee held cash & shares worth $5M, and no debt.

3 Jindalee has only 34.9M shares on issue, providing great leverage for shareholders.

4 Directors and management combine more than 60 years of technical and commercial experience and are significant shareholders in the Company.

5 Jindalee shareholders have received priority entitlements to several IPO's (including Energy Metals, Anchor Resources and Alchemy Resources) and were issued a 55c special dividend in July 2010.

6 Jindalee's operational strategy minimises the acquisition and holding costs on its pipeline of projects, limiting working capital requirements while retaining access to the potential upside.

Outcropping lithium bearing sediments at Jindalee's McDermitt Project

REVIEW OF ACTIVITIES

Since listing in July 2002 Jindalee's primary objective has been the creation of wealth for our shareholders. We take a disciplined approach to mineral exploration by identifying and acquiring prospective ground, adding value through additional exploration activity or innovative thinking to bring the project to a decision point and either:

(a) continuing exploration on a 100% basis,

(b) introducing partners to fund the higher risk and/or expensive stages of exploration, or

(c) funding further exploration via a dedicated company in which Jindalee retains a significant interest.

Our preference to build assets from scratch rather than purchase has been very successful and Jindalee shareholders have received priority entitlements to former subsidiary Energy Metals Limited when it was spun out in 2005, as well as other IPO's listing on Jindalee properties, including Anchor Resources Limited and Alchemy Resources Limited. Jindalee also returned $19 million in cash to shareholders via a $0.55 fully franked special dividend paid in July 2010, following the sale of 70% of our stake in Energy Metals to China Guangdong Nuclear Power Company.

Jindalee's counter-cyclic strategy sees us acquire high quality opportunities for minimal cost at low points in the cycle. During the recent period Jindalee maintained this strategy, lodging numerous tenement applications that built on our existing holdings (e.g. in the Widgiemooltha area of Western Australia), as well as establishing new

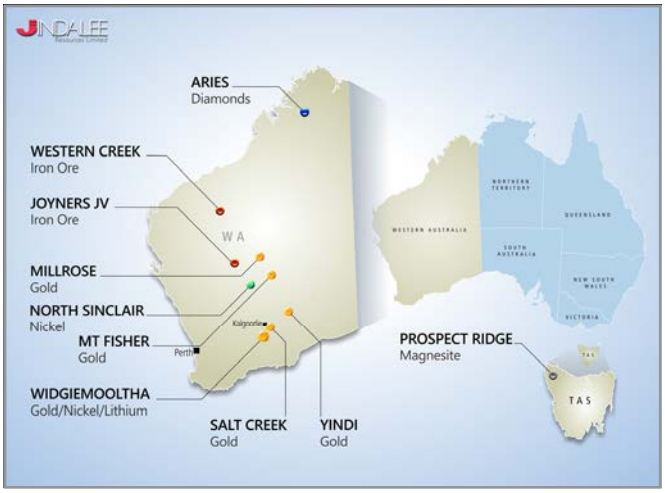

Figure 1: Jindalee's Australian Projects

areas of interest for the Company with the staking of a number of claims in the USA (US Lithium Projects).

Jindalee provides shareholders with direct exposure to a range of commodities on our own projects including gold, nickel, lithium, magnesite, diamonds and iron ore (Figure 1), with additional exposures via our investee companies Energy Metals Limited and Alchemy Resources Limited. Further information follows in this report.

Jindalee's strong balance sheet (around $5M in cash and shares at 30 June 2018) places the Company in a strong position to add value to the projects already in our portfolio and to acquire further high-quality opportunities over the coming period.

Looking west across the McDermitt Project, March 2018

KEY ASSETS

US LITHIUM

In June 2018 Jindalee announced the acquisition of two lithium sediment projects in the United States, at McDermitt[1] and Clayton North[2] (Figure 2). These projects are 100% owned by HiTech Minerals Inc., a wholly owned, US based subsidiary of Jindalee and were generated by Jindalee after an extensive search across Nevada, Arizona and Oregon by Australian and US personnel, and after ground truthing and sampling of twelve potential project areas. The projects were acquired for the cost of field work, staking and filing the relevant claims.

Jindalee was attracted to the projects by several factors:

- the mineralisation style has the potential for large scale, long life sources of lithium that sit at the lower end of the global cost curve;
- the projects are located in a mining friendly jurisdiction with significant domestic lithium demand that currently imports a significant proportion of its requirements; and
- there is the opportunity for Jindalee to rapidly advance the projects at relatively low cost.

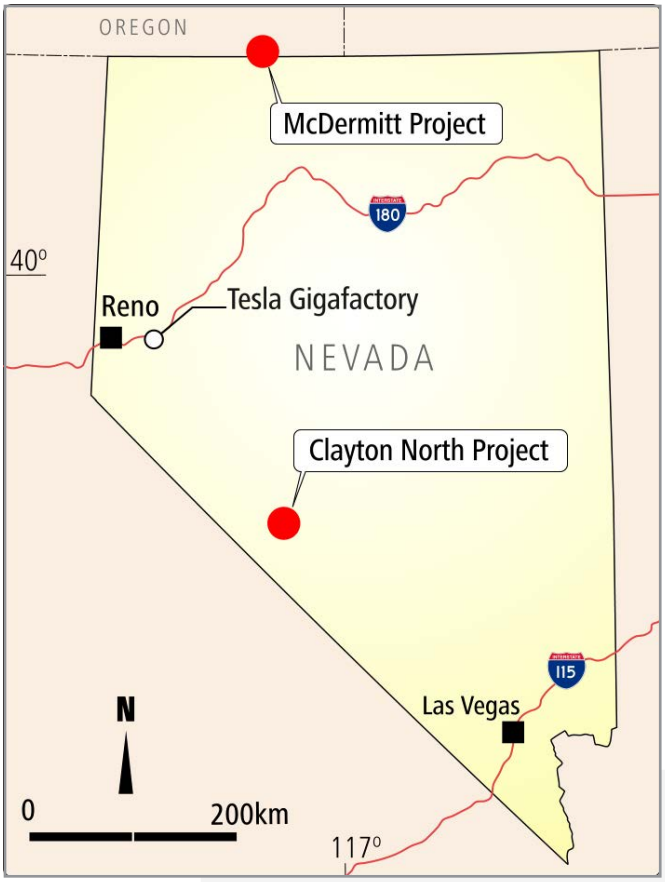

Figure 2: Jindalee's US Lithium Projects

WIDGIEMOOLTHA PROJECT

Jindalee has continued to build on its substantial ground position in the Widgiemooltha area, adding several tenement applications during the period (Figure 3). Numerous historic and currently operating gold and nickel mines are present in the district, and significant new discoveries continue to be made including Invincible (Au) by Gold Fields Limited; Baloo (Au) by S2 Resources, now held by Westgold Resources Limited; Cassini (Ni) by Mincor Resources NL, and Sinclair Zone (Cs) by Pioneer Resources Limited.

A district scale targeting study and review of historic work has been completed, identifying a range of targets for gold and nickel that are currently the subject of further work and data compilation. Available ground in this highly prospective district is very limited and several options for realising the value in Jindalee's tenement package are being tested.

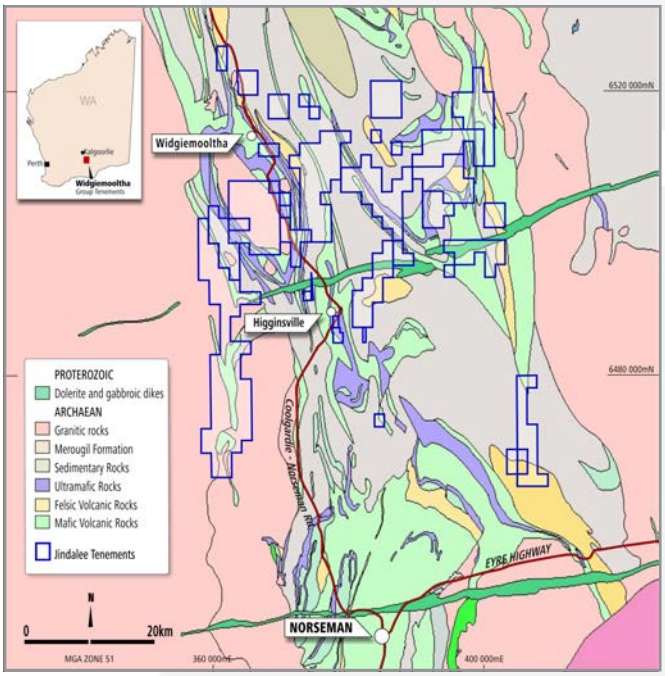

Figure 3: Widgiemooltha Project tenements (as at 30 June 2018) over regional geology. Note some portions of the tenements are excised by pre-existing mining and other leases.

OTHER ASSETS

Prospect Ridge (magnesite) (Jindalee 100%)

The Prospect Ridge Project comprises a single granted Exploration Licence (EL5/2016) located 55km southwest of Burnie in NW Tasmania (Figure 4). The project covers the Arthur River and Lyons River magnesite deposits, containing the third largest inventory of magnesite Economic Demonstrated Resources in Australia (refer www.ga.gov.au). Magnesite is the primary source of magnesia, used in the agricultural, mineral processing,

paper manufacturing and refractory industries. Magnesia is also used to produce magnesium (Mg), a light metal widely used in the aerospace, automotive and electronics industries.

The project has been explored by companies including Mineral Holdings Australia, CRAE (now Rio Tinto), TasMag, Crest Magnesium and most recently by Beacon Hill Resources Plc. Beacon Hill undertook extensive pre-development activities at the Arthur River deposit, providing an excellent foundation from which Jindalee can further progress the project toward development.

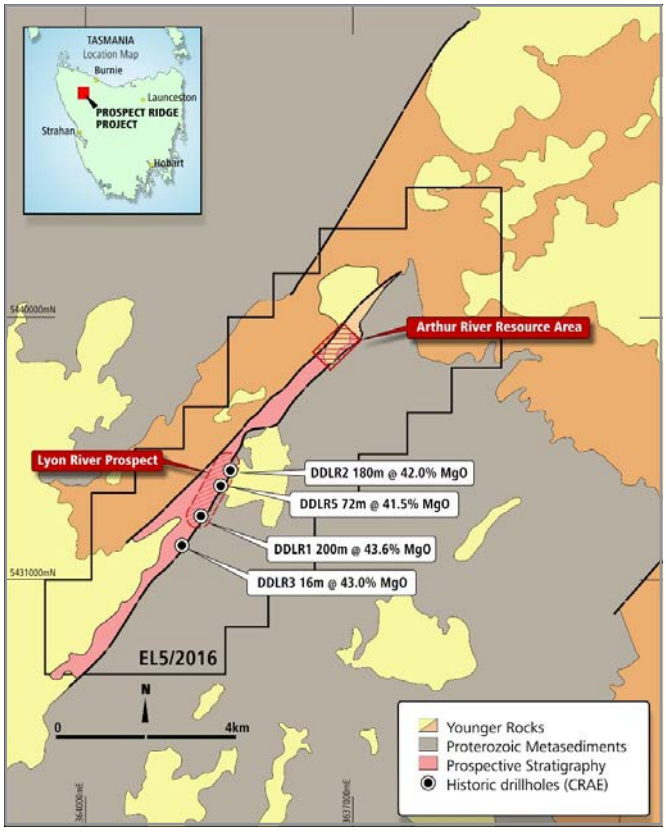

Figure 4: Jindalee's Prospect Ridge Project over regional geology.

Since grant of the licence, Jindalee has compiled the extensive historical database for the project, defined a JORC (2012) compliant resource at Arthur River, and completed a program of metallurgical testwork. An inferred resource of 25.1Mt at 42.4% MgO was announced in October 2017[3]. Numerous drillholes end in mineralisation indicating considerable exploration potential remains at depth and along strike at both prospects, and particularly at Lyon River.

Two composite samples from the Arthur River deposit representative of typical oxide and fresh mineralisation within the upper 70m of the deposit were subjected to a range of metallurgical tests. The tests demonstrated

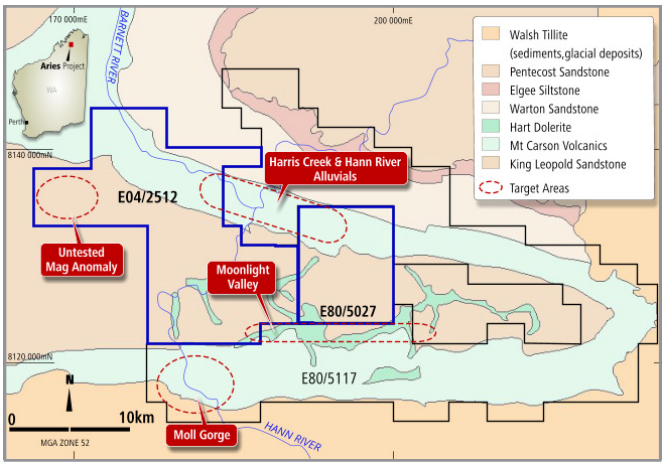

Figure 5: Aries Project tenements over regional geology.

that a high-grade product was able to be produced, but more extensive testwork is required to understand the full economic potential of the project[4]. Jindalee has commenced a search for a suitably skilled partner to progress this further.

Aries (diamonds) (Jindalee 100%)

Jindalee's Aries Project consists of three contiguous tenements (E80/5027, E04/2512 and diamond rights on E80/5117) in the central Kimberley region of Western Australia, approximately 270km east of Derby and 230km west of Rio Tinto's Argyle diamond mine, (Figure 5).

The project covers the Aries kimberlite cluster, including the Aries, Athena, Helena and Persephone diamondiferous kimberlite pipes. Although significant exploration was undertaken in the period from 1986 to 2005, Jindalee believes that there is good potential to find additional diamondiferous pipes and alluvial diamond deposits in the area. Encouragingly, 95% of the diamonds recovered from the project have been gem quality.

During the period historical data was compiled and an agreement to explore on the adjacent tenement holders ground was achieved at no cost via an innovative mineral rights swap deal with Celsius Resources Limited[5]. Targets have been generated for future follow up work.

Yindi Project (gold) (Jindalee 100%)

The Yindi Project tenement (E28/2708) is located 135km NE of Kalgoorlie (Figure 6) and covers the southern end of the highly endowed Laverton Tectonic Zone. It abuts Apollo Consolidated's (ASX: AOP) Rebecca Project. Apollo continues to report additional positive drill intercepts from its 161 Lode (Jennifer) gold discovery[6] and Jindalee is currently reviewing the best option(s) for moving the project forward.

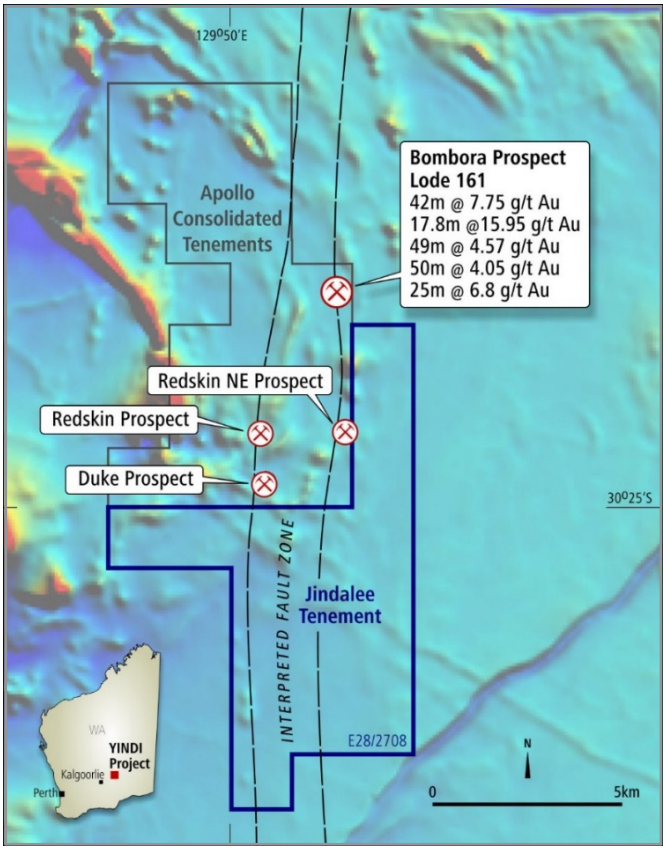

Figure 6: Yindi Project tenure over regional aeromagnetics.

Western Creek (iron ore) (Jindalee 100%)

The Western Creek project comprises a single Exploration Licence (E52/3520) applied for in February 2017 and located approximately 10km WSW of BHP's Mt Whaleback operations in the eastern Pilbara, and abutting BHP's tenure. The tenement covers ground previously held by Atlas Iron (ASX: AGO), and includes the Western Creek CID (detrital channel iron) deposit where Atlas reported an inferred resource of 79Mt @ 56% Fe (50% Fe cut-off).[7]

Jindalee's application was subject to competing applications with E52/3250 gaining priority over approximately 19km², including the Western Creek deposit. The Company will now look to expedite the grant of E52/3250 so that field work can commence. Additional tenement applications in the Pilbara region prospective for iron ore are currently moving through the grant process and will be reported on as progress is made.

JOINT VENTURES AND NON-MANAGED PROJECTS

Joyners (Jindalee 20% free carried)

The Joyners joint venture with GWR Group Limited (ASX: GWR) forms a part of GWR's much larger Wiluna West project. GWR has earned an 80% interest in M53/1078, with Jindalee maintaining a 20% equity position, free-carried through to completion of a Bankable Feasibility Study. The joint venture tenement contains previously published indicated and inferred iron oxide resources at Joyners North.

Millrose (Alloy Resources Limited option)

Alloy Resources Limited (ASX: AYR) holds an option to acquire Jindalee's Millrose project located in the NE Goldfields region of Western Australia (Figure 1). During the period Alloy added to its ground position along the trend of the Celia Shear zone and has continued to explore the district[8,9].

North Sinclair and Camel Bore (Aldoro earning 80% of non-gold rights)

Jindalee reached agreement with Aldoro Resources Limited (ASX: ARN) to vend 80% of the non-gold rights of two of its projects into an initial public offering (IPO)[10]. The Aldoro IPO was completed subsequent to year end and Jindalee looks forward to future exploration success for Aldoro.

INDIRECT INTERESTS

Alchemy Resources (Jindalee 4.9% of issued capital)

Jindalee is Alchemy Resources Limited's (ASX: ALY) third largest shareholder, providing shareholders with exposure to Alchemy's Bryah Basin gold and base metals project (WA), the Karonie gold project (WA), and a farm in and joint venture with Heron Resources Limited over properties in central NSW (the Cobar Basin/Lachlan Fold Belt and West Lynn Projects) prospective for gold, base metals and high purity alumina. Further information on Alchemy's activities can be found in their announcements and on their website, www.alchemyresources.com.au.

Energy Metals (Jindalee 6.7% of issued capital)

Jindalee holds approximately 14 million Energy Metals (ASX: EME) shares, giving shareholders continued exposure to the development of the Bigrlyi uranium-vanadium deposit and the potential of Energy Metals' other uranium projects. Further information on Energy Metals' activities can be found in Energy Metals ASX announcement and on their website, www.energymetals.net

Other (Jindalee various holdings)

Jindalee holds interests in several other mineral exploration and development companies as a result of previous tenement transactions. These shareholdings will be realised at appropriate times to fund additional activity.

Looking east from high mesa at McDermitt

OUTLOOK

Jindalee's strategy is to identify and acquire projects with the potential to transform the Company and this continues to be our ongoing primary focus, whilst at the same time maintaining the flexibility to deal on other projects as opportunities present, with the transactions on Millrose, North Sinclair and Camel Bore being recent examples.

The substantial land package acquired over time at Widgiemooltha and the US Lithium projects are examples of larger scale undertakings where Jindalee is investing substantial effort at low cost to create significant value. The Company expects to identify further high-quality opportunities in the period ahead and continues to apply a disciplined approach to implementing its strategy.

At 30 June 2018, Jindalee held cash and marketable securities worth approximately $5M. These assets, combined with our tight capital structure, provide a strong base for advancing existing projects and leveraging into new opportunities.

Competent Person Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Pip Darvall and Mr Lindsay Dudfield. Mr Darvall is an employee of the Company and Mr Dudfield is a consultant to the Company. Both Mr Darvall and Mr Dudfield are members of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Both Mr Darvall and Mr Dudfield have sufficient experience, relevant to the styles of mineralisation and types of deposits under consideration, and to the activity which they are undertaking, to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves.' Both Mr Darvall and Mr Dudfield consent to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Forward-Looking Statements

This document may contain certain forward-looking statements. Forward-looking statements include,but are not limited to statements concerning Jindalee Resources Limited's (Jindalee's) current expectations, estimates and projections about the industry in which Jindalee operates, and beliefs and assumptions regarding Jindalee's future performance. When used in this document, the words such as "anticipate", "could", "plan", "estimate", "expects", "seeks", "intends", "may", "potential", "should", and similar expressions are forward-looking statements. Although Jindalee believes that its expectations reflected in these forward-looking statements are reasonable, such statements are subject to known and unknown risks, uncertainties and other factors, some of which are beyond the control of Jindalee and no assurance can be given that actual results will be consistent with these forward-looking statements.

DIRECTOR'S REPORT

The Directors present their report on the consolidated entity (referred to hereafter as the Group) consisting of Jindalee Resources Limited and the entities it controlled at the end of, or during the year ended 30 June 2018.

Directors

The following persons were directors of Jindalee Resources Limited during the whole of the financial year and up to the date of this report unless noted otherwise:

Lindsay Dudfield

Justin Mannolini

Patricia Farr

Pip Darvall (appointed 28 May 2018)

Principal activities

The principal activity during the year of Jindalee Resources Limited was mineral exploration. During the year there was no change in the nature of this activity.

Financial results

The consolidated loss of the Group after providing for income tax for the year ended 30 June 2018 was $1,395,292 (2017: loss $385,296).

Dividends

No dividends have been declared since the end of the previous financial year and no dividends have been recommended by the Directors.

Significant changes in the state of affairs

During the year there has been no significant change in the state of affairs of the Group.

Operations and financial review

The principal activity of the Group is mineral exploration. The Group holds interests in tenements in the United States, Tasmania and Western Australia prospective for lithium, magnesite, gold, diamonds, nickel and iron ore, with most of these tenements wholly owned. The Group also has indirect interests in uranium, gold and base metals through investee companies.

In line with the Company's business strategy, during the period management evaluated numerous advanced projects in both Australia and overseas, with a view to securing an opportunity capable of growing the Group and creating wealth for Shareholders.

The net assets of the Group have fallen by $89,952 from $5,517,627 at 30 June 2017 to $5,427,675 at 30 June 2018, principally due to the Group's loss for the year of $1,395,292 offset by a gain from the revaluation of the Group's investments of $807,301 and share-based payments reserve movement of $498,039.

The Directors believe the Group is in a strong financial position to continue its exploration endeavours.

Events since the end of the financial year

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations, the results of those operations, or the state of affairs of the Group in future financial years.

Likely developments and expected results of operations

The Directors are not aware of any developments that might have a significant effect on the operations of the Group in subsequent financial years not already disclosed in this report.

Environmental regulation

The Group is subject to significant environmental regulation in respect of its exploration activities. Tenements in Western Australia are granted subject to adherence to environmental conditions with strict controls on clearing, including a prohibition on the use of mechanised equipment or development without the approval of the relevant government agencies, and with rehabilitation required on completion of exploration activities. These regulations are controlled by the Department of Mines and Petroleum.

Jindalee's claims in the United States of America are all located on Federally owned land managed by the Bureau of Land Management. There are a range of requirements that must be met when undertaking exploration activities, including seeking approval depending on the nature of the activities and undertaking rehabilitation once activities are complete. Bonds are payable prior to the commencement of exploration activities and are returned on satisfactory completion of rehabilitation. Jindalee Resources Limited conducts its exploration activities in an environmentally sensitive manner and the Group is not aware of any breach of statutory conditions or obligations.

Greenhouse gas and energy data reporting requirements

The Directors have considered compliance with both the Energy Efficiency Opportunity Act 2006 and the National Greenhouse and Energy Reporting Act 2007 which requires entities to report annual greenhouse gas emissions and energy use. The Directors have assessed that there are no current reporting requirements for the year ended 30 June 2018, however reporting requirements may change in the future.

Information on Directors

J Mannolini B.Com/LL (Hons), LLB (Law), GAICD. *Non-Executive Chairman*		
Experience and expertise	Mr Mannolini was appointed to the Jindalee Board as a Non-Executive Director in September 2013 and as Chairman in July 2016. Mr Mannolini is a partner in the Corporate Advisory Group of Australian law firm Gilbert + Tobin. He was an Executive Director with Macquarie Capital, the investment banking division of the Macquarie Group from March 2013 to May 2016 and was responsible for cross-industry coverage of the Western Australian market. Prior to joining Macquarie, Mr Mannolini was Managing Director and head of Gresham Advisory Partners' Perth office, and before that, a partner in the mergers and acquisitions group of Australian law firm Freehills. In May 2016 Mr Mannolini was appointed to the board of the Northern Australia Infrastructure Facility, a $5B fund set up by the Australian Government to encourage population growth and economic development in northern Australia. As a lawyer and investment banker, Mr Mannolini has more than 20 years experience in corporate finance ranging across industry sectors and product lines, including mergers and acquisitions transactions and general strategic advisory mandates for companies in the resources sector.

P Farr GradCertProfAcc. GradDipACG. GAICD FGIA/FCIS *Executive Director/Joint Company Secretary*		
Experience and expertise	Ms Farr is an experienced Chartered Secretary with over 20 years experience in the exploration and mining industry in the areas of corporate governance, compliance and administration. Ms Farr has provided Company secretarial services to several ASX listing companies including Energy Metals Limited and Musgrave Minerals Limited. Mrs Farr is a graduate member of the Australia Institute of Company Directors, fellow member of Governance Institute of Australia (formerly Chartered Secretaries Australia) and the Institute of Chartered Secretaries and Administrators. Mrs Farr was appointed to the Jindalee Board in 2008.	
Other current directorships	None	
Former directorships in last 3 years	None	
Special responsibilities	None	
Interests in shares and options	Ordinary Shares – Jindalee Resources Limited	406,533
	Unlisted $0.40 Options expiring 30/06/2022	500,000 (vested 22/11/2017)

Company Secretary Information

Mr Greg Ledger was appointed Company Secretary on 4 April 2002 and has held that position, as well as other accounting and managerial roles since that date. Mr Ledger is a Chartered Accountant and holds a Bachelor of Commerce Degree from the University of Western Australia.

Ms Farr was appointed joint Company Secretary on 1 July 2010. She is an experienced Chartered Secretary having provided Company Secretarial services to several ASX listed companies and unlisted companies, the majority of which operate in the mineral resources sector in Australia. Ms Farr is a graduate member of the Australian Institute of Company Directors and fellow member of Governance Institute of Australia (formerly Chartered Secretaries Australia).

Meetings of Directors

The following table sets out the number of meetings of the Company's Directors held during the year ended 30 June 2018 the numbers of meetings attended by each Director.

	Number Held Whilst in Office	Number Attended
L Dudfield	7	7
J Mannolini	7	7
P Farr	7	7
P Darvall (appointed 28 May 2018)	0	0

As at the date of this report, the Group did not have an Audit Committee of the Board of Directors. The Board considers that due to the Group's size, an Audit Committee's functions and responsibilities can be adequately and efficiently discharged by the Board as a whole, operating in accordance with the Group's mechanisms designed to ensure independent judgement in decision making.

Retirement, election and continuation in office of directors

Mr Lindsay Dudfield is a director retiring by rotation who, being eligible, may offer himself for re-election at the Company's 2018 Annual General Meeting.

AUDITED REMUNERATION REPORT

The Directors are pleased to present Jindalee Resources Limited 2018 remuneration report which sets out remuneration information for the Company's non-executive directors, executive directors and other key management personnel.

The report contains the following sections:

(a) Key management personnel disclosed in this report
(b) Remuneration governance and the use of remuneration consultants
(c) Executive remuneration policy and framework
(d) Relationship between remuneration and the Group's performance
(e) Non-executive director remuneration policy
(f) Voting and comments made at the Company's 2017 Annual General Meeting
(g) Details of remuneration
(h) Service agreements
(i) Details of share-based compensation and bonuses
(j) Equity instruments held by key management personnel
(k) Loans to key management personnel
(l) Other transactions with key management personnel

(a) Key management personnel disclosed in this report

J Mannolini	Non-Executive Chairman
L Dudfield	Executive Director (resigned as Managing Director effective 28 May 2018)
P Farr	Executive Director/Company Secretary
P Darvall	Managing Director (appointed Managing Director effective 28 May 2018)

For further details on each director see pages 11-12.

(b) Remuneration governance and use of remuneration consultants

The Company does not have a formal remuneration policy and has not established a separate Remuneration Committee. Due to the early stage of development and small size of the Company a separate Remuneration Committee was not considered to add any efficiency to the process of determining the levels of remuneration for directors and key executives. The Board considers that it is more appropriate to set aside time at a Board meeting each year to specifically address matters that would ordinarily fall to a remuneration committee such as reviewing remuneration, recruitment, retention and termination procedures and evaluating senior executive's remuneration packages and incentives.

In addition, all matters of remuneration will continue to be in accordance with the Corporations Act requirement, especially with regard to related party transactions. That is, none of the directors participate in any deliberations regarding their own remuneration or related issues.

Independent external advice is sought from remuneration consultants when required, however no advice has been sought during the year ended 30 June 2018.

The Corporate Governance Statement provides further information on the Company's remuneration governance. Further details on the Corporate Governance Statement can be found on the Company's website www.jindalee.net

(c) Executive remuneration policy and framework

In determining executive remuneration, the Board aims to ensure that remuneration practices are:

- Competitive and reasonable, enabling the Company to attract and retain key talent
- Aligned to the Company's strategic and business objectives and the creation of shareholder value
- Transparent and easily understood, and
- Acceptable to shareholders.

All executives receive consulting fees or a salary, part of which may be taken as superannuation, and from time to time, options. Options issued to directors are subject to approval by Shareholders. The Board reviews executive packages annually by reference to the executive's performance and comparable information from industry sectors and other listed companies in similar industries.

Board members are allocated superannuation guarantee contributions as required by law, and do not receive any other retirement benefits. From time to time, some individuals may choose to sacrifice their salary or consulting fees to increase payments towards superannuation.

All remuneration paid to directors and specified executives is valued at the cost to the Group and expensed. Options are valued using the Black-Scholes methodology.

(d) Relationship between remuneration and the Group's performance

The policy setting the terms and conditions for the executive directors, was developed and approved by the Board and is considered appropriate for the current exploration phase of the Group's development. Emoluments of Directors are set by reference to payments made by other companies of similar size and industry, and by reference to the skills and experience of directors. Fees paid to directors are not linked to the performance of the Group. This policy may change once the exploration phase is complete and the Company is generating revenue. At present the existing remuneration policy is not impacted by the Group's performance including earnings and

changes in shareholder wealth (dividends, changes in share price or returns of capital to shareholders). The Board has not set short term performance indicators, such as movements in the Company's share price, for the determination of director emoluments as the Board believes this may encourage performance which is not in the long-term interests of the Company and its shareholders. The Board has structured its remuneration arrangements in such a way it believes is in the best interests of building shareholder wealth in the longer term. The Board believes participation in the Company's Employee Share Option Plan motivates key management and executives with the long-term interests of shareholders.

(d) Relationship between remuneration and the Group's performance (continued)

The following table shows the share price and the market capitalisation of the Group at the end of each of the last five financial years.

	2014	2015	2016	2017	2018
Share Price	$0.165	$0.17	$0.23	$0.21	$0.28
Market Capitalisation	$5.74M	$5.91M	$8.03M	$7.33M	$9.77M
Dividends (cents per share)	–	–	–	–	–

(e) Non-executive director remuneration policy

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms including remuneration, relevant to the office of director.

The Board policy is to remunerate non-executive directors at commercial market rates for comparable companies for their time, commitment and responsibilities.

The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting and is currently set at $200,000 per annum.

Fees for non-executive directors are not linked to the performance of the Group. Non-executive directors' remuneration may also include an incentive portion consisting of options, subject to approval by Shareholders.

(f) Voting and comments made at the Company's 2017 Annual General Meeting

Jindalee received greater than 96% of "yes" votes on its remuneration report for the 2017 financial year. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

(g) Details of remuneration

The following table sets out details of the remuneration received by the Group's key management personnel for the current and previous financial year measured in accordance with the requirements of the accounting standards.

		Short-term benefits		Post-employment benefits	Share-based payment			Remuneration consisting of options
		Directors Fees $	Cash Salary, Consulting Fees $	Super-annuation $	Options $	Shares $	Total $	Percentage %
Non-Executive Director/Chairman

	2017	–	96,000	9,120	–	–	105,120	–

P Darvall was appointed Managing Director on 28 May 2018.

(h) Service Agreements

Remuneration and other terms of employment for key management personnel are formalised in service agreements. The service agreements specify the components of remuneration, benefits and notice periods.

J Mannolini

Mr Mannolini was appointed a Non-Executive Director on 30 September 2013 and appointed Chairman on 1 July 2016.

Mr Mannolini's is paid directors fees of $50,000 plus statutory superannuation of $4,750 per annum in accordance with his letter of appointment. Mr Mannolini's appointment is contingent upon satisfactory performance and successful re-election by shareholders of the Company as and when required by the Constitution of the Company and the Corporations Act. Mr Mannolini is not entitled to any termination benefits.

P Darvall

Mr Darvall was appointed Managing Director on 28 May 2018. Mr Darvall is paid an annual salary of $240,000 per annum plus statutory superannuation pursuant to an Executive Services Agreement. Mr Darvall's service agreement may be terminated by either party on the giving of three months notice. Upon termination of the contract for any reason, the Company will pay leave entitlements due to Mr Darvall.

L Dudfield

Mr Dudfield was appointed a director on 22 January 1996. Mr Dudfield is remunerated pursuant to the terms and conditions of a consultancy agreement entered into with Mr Dudfield and Jopan Management Pty Ltd trading as Western Geological Services. During the financial year ended 30 June 2018, Mr Dudfield was paid consulting fees of $125,625. Unless extended for a further period, the current consultancy agreement will expire in June 2019. The agreement may be terminated by either party on the giving on 90 days notice or earlier in the event of a default not remedied within 14 days. Mr Dudfield is not entitled to any termination benefits.

P Farr

Ms Farr was appointed as a director on 29 August 2008. Ms Farr is paid a salary of $120,000 per annum plus statutory superannuation pursuant to the terms and conditions of an ongoing employment contract. Due to reduced hours during the financial year Ms Farr was paid a salary of $96,000 and statutory superannuation of $9,120 for the year ended 30 June 2018. Ms Farr's employment contract may be terminated by either party on the giving of one month's notice. Upon termination of the contract for any reason the Company will pay leave entitlements due to Ms Farr.

(i) Details of share-based compensation and bonuses

Options over shares in Jindalee Resources Limited are granted under the Company's Employee Share Option Plan. Participation in the plan and any vesting criteria, is at the Board's discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits. Any options issued to directors of the Company are subject to shareholder approval.

Details of options over ordinary shares in the Company provided as remuneration to each director of the Company are set out below.

Name	Grant Date	Number of Options Granted	Vesting date	Expiry date	Exercise Price	Value per option at Grant Date	% vested
J Mannolini	22/11/2017	500,000	22/11/2017	30/06/2022	$0.40	$0.106	100%
L Dudfield	22/11/2017	1,000,000	22/11/2017	30/06/2022	$0.40	$0.106	100%
P Farr	22/11/2017	500,000	22/11/2017	30/06/2022	$0.40	$0.106	100%
P Darvall	22/11/2017	1,500,000	30/06/2018	30/06/2022	$0.40	$0.108	100%
P Darvall	22/11/2017	1,500,000	30/06/2019	30/06/2022	$0.50	$0.095	0%
P Darvall	22/11/2017	1,500,000	30/06/2020	30/06/2022	$0.60	$0.085	0%

(i) Details of share-based compensation and bonuses (continued)

The fair value of services received in return for share options granted to employees is measured by reference to the fair value of options granted. The estimate of the fair value of the services is measured based on Black-Scholes option valuation methodology. The life of the options and early exercise option are built into the option model.

No bonuses were paid during the year and there is currently no bonus scheme in place.

Further information on the fair value of share options and assumptions is set out in Note 18 to the financial statements.

(j) Equity instruments held by key management personnel

The following tables detail the number of fully paid ordinary shares and options over ordinary shares in the Company that were held during the financial year and the previous financial year by key management personnel and their associated related parties.

* Changes during the year relate to on-market and off-market purchases.

Securities Policy

The Company has implemented a policy on trading in the Company's securities designed to ensure that all directors, senior management and employees of the Company act ethically and do not use confidential inside information for personal gain. The policy states acceptable and unacceptable times for trading in Company securities and outlines the responsibility of directors, senior management and employees to ensure that trading complies with the Corporations Act 2001, the Australian Securities Exchange (ASX) Listing Rules and Company Policy. A copy of this policy was lodged with the ASX and is available on the Company's website.

Any transaction conducted by Directors with regards to shares of the Company requires notification to the ASX. Each Director has entered into an agreement to provide any such information with regards to Company dealings directly to the Company Secretary promptly to allow the Company to notify the ASX within the required reporting timeframes.

Shares provided on exercise of options

During the year, no ordinary shares in the Company were provided as a result of the exercise of remuneration options.

For details on the valuation of the options, including models and assumptions used, please refer to Note 18. There were no alterations to the terms and conditions of options granted as remuneration since their grant date.

(k) Loans to key management personnel

There were no loans to individuals or members of key management personal during the financial year or the previous financial year.

() Other transactions with key management personnel

During the year the Group paid a total of $125,625 to Western Geological Services (a division of Jopan Management Pty Ltd), the fees being for the provision of technical and management services provided to the Group by Mr Lindsay Dudfield. Mr Dudfield's spouse is the major shareholder of and the sole director and company secretary of Jopan Management Pty Ltd.

End of Audited Remuneration Report

Shares under option

Unissued ordinary shares of the Company under option at the date of this report are as follows:

Grant Date	Number	Date vested & exercisable	Expiry Date	Exercise Price
22/08/2017	400,000	22/08/2017	30/06/2022	$0.40
22/11/2017	2,000,000	22/11/2017	30/06/2022	$0.40
22/11/2017	1,500,000	30/06/2018	30/06/2022	$0.40
22/11/2017	1,500,000	30/06/2019	30/06/2022	$0.50
22/11/2017	1,500,000	30/06/2020	30/06/2022	$0.60

No option holder has any right under the options to participate in any other share issue of the Company or any other entity.

Shares Issued on Exercise of Options

There were no shares issued on exercise of options during the year and up to the date of this report.

Directors and Officers insurance

Jindalee Resources Limited paid a premium during the year in respect of directors' and officers' liability insurance policy, insuring the directors and officers of the company against a liability incurred whilst acting in the capacity of a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The Directors have not included details of the nature of the liabilities covered or the amount of the premium paid in respect of the policy as such disclosure is prohibited under the terms of the contract of insurance.

Corporate Governance Statement

The Company's 2018 Corporate Governance Statement has been released as a separate document and is located on the Company's website at http://jindalee.net/corporate-governance/.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

Non-audit services

The Company from time to time may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company is important.

The Board of Directors has considered the position and is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services by the auditor as set out below did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- the non-audit services have been reviewed by the Board to ensure they do no impact on the impartiality and objectivity of the auditor; and
- none the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

During the year ended 30 June 2018 and in the previous financial year there were no fees paid or payable for non-audit services provided by the auditor of Jindalee Resources Limited.

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required by section 307C of the Corporations Act 2001 is included on page 50.

This report is signed in accordance with a resolution of the Directors.

NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1. CORPORATION INFORMATION

These financial statements of Jindalee Resources Limited for the year ended 30 June 2018 were authorised for issue in accordance with a resolution of directors on 14 September 2018.

The financial statements cover the Group of Jindalee Resources Limited and it's controlled entities. Jindalee Resources Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The nature of the operations and principal activities of the Group are described in Note 3.

Unless otherwise stated, policies adopted in the preparation of the financial statements are consistent with those of the previous year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In order to assist in the understanding of the financial statements, the following summary explains the material accounting policies that have been adopted in the preparation of the accounts.

(a) Statement of Compliance

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the Corporations Act 2001.

Compliance with IFRS

The consolidated financial statements of Jindalee Resources Limited also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

New and amended accounting standards and interpretations adopted by the Group

The following standards and interpretations relevant to the operations of the Group and effective from 1 July 2017 have been adopted. The adoption of these standards did not have any impact on the current period or any prior period and is not likely to affect future periods.

- AASB 2016-1: Amendments to Australian Accounting Standards – Recognition of Deferred Tax Assets for Unrealised Losses
- AASB 2016-2: Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 107, and
- AASB 2017-2: Amendments to Australian Accounting Standards – Further Annual Improvements 2014-2016 Cycle.

New accounting standards and interpretations

The following new and amended accounting standards and interpretations relevant to the operations of the Group have been published but are not mandatory for the current financial year. The Group has decided against early adoption of these standards and, from assessments to date, do not believe there will be any material impact on the financial statements from the adoption of these standards and interpretations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New or revised requirement	Application date of standard	Application date for Group
AASB 9: *Financial Instruments* AASB 9 replaces AASB 139: *Financial Instruments: Recognition and Measurement.* The objective of this Standard is to establish principles for the financial reporting of financial assets and financial liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. There may be a change on the Group's accounting for available-for-sale assets dependant on the accounting treatment elected on adoption.	1 Jan 2018	1 Jul 2018
AASB 15: *Revenue from Contracts with Customers* The objective of this Standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. There will be no impact on the Group's accounting as currently Group does not have any contracts with customers.	1 Jan 2018	1 Jul 2018
AASB 2016-5: Amendments to Australian Accounting Standards - Classification and Measurement of Share-based Payment Transactions This Standard amends AASB 2: *Share-based Payment*, clarifying how to account for certain types of share-based payment transactions. The amendments provide requirements on the accounting for: • The effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments • Share-based payment transactions with a net settlement feature for withholding tax obligations • A modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.	1 Jan 2018	1 Jul 2018
AASB 16: *Leases* This Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity. The new Standard introduces three main changes: • Enhanced guidance on identifying whether a contract contains a lease; • A completely new leases accounting model for lessees that require lessess to recognise all leases on balance sheet, except for short-term leases and leases of low value assets; and • Enhanced disclosures. Lessor accounting will not change significantly. The standard is likely to affect future financial reporting and the Group is still assessing all of the potential consequences. The standard is likely to impact the Group's office lease. The Group expects that AASB 16 will result in an increase in assets and liabilities as affected contracts will no longer qualify as operating leases and thus will not be expensed as payments are made.	1 Jan 2019	1 Jul 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Basis of Preparation/Accounting

The financial statements have been prepared on an accruals basis and are based on historical costs and do not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

In applying International Financial Reporting Standards ("IFRS"), management is required to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported. These accounting policies have been consistently applied throughout the period.

The significant accounting policies set out below have been applied in the preparation and presentation of the financial statements for the year ended 30 June 2018 and the comparative information.

(d) Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of Jindalee Resources Limited ("Company" or "Parent Entity") as at 30 June 2018 and the results of all subsidiaries for the year then ended. Jindalee Resources Limited and its subsidiaries together are referred to in the financial statements as the Group or consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the parent entity information disclosures of Jindalee Resources Limited.

Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Jindalee Resources Limited.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Principles of Consolidation (continued)

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that the amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly-controlled entity or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(e) Cash and Cash Equivalents

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand, and term deposits repayable on demand with a financial institution. The cash and cash equivalents balance primarily consists of funds on term deposit with original maturity at time of purchase of three months or less that are readily convertible to known amounts of cash and which are subject to minimal risk of changes in value.

(f) Trade and Other Receivables

Receivables are initially recognised at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Current receivables for GST are due for settlement within 30 days and other current receivables within 12 months. Cash on deposit in respect of environmental bonds is not due for settlement until rights of tenure are forfeited or performance obligations are met.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for doubtful debts) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in the statement of profit or loss and other comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of profit or loss and other comprehensive income.

(g) Revenue Recognition

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is stated net of the amount of goods and services tax.

Revenue in relation to joint venture agreements is recognised over the period the services are rendered. Revenue from the sale of investments is recorded when all risks and rewards relating to the assets are posted to the third party.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Property, Plant and Equipment

Plant and equipment is stated at cost less accumulated depreciation and any impairment in value.

Depreciation is calculated using the diminishing value and prime cost methods and is brought to account over the estimated economic lives of all property, plant and equipment. The rates used are based on the useful life of the assets and range from 10% to 40%.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Depreciation methods, useful lives and residual values are reassessed at each reporting date.

(i) Impairment of Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's values in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its' recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset.

As assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had the impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at the revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(j) Exploration and Evaluation Expenditure

The Group's policy with regards to exploration and evaluation expenditure, including the costs of acquiring licences and permits, are capitalised as exploration and evaluation assets on an area of interest basis. Under this method exploration and evaluation expenditure is carried forward on the following basis:

i) Each area of interest is considered separately when deciding whether, and to what extent, to carry forward or write off exploration and evaluation costs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Exploration and Evaluation Expenditure (continued)

ii) Exploration and evaluation expenditure related to an area of interest is carried forward provided that rights to tenure of the area of interest are current and that one of the following conditions is met:

– such evaluation costs are expected to be recouped through successful development and exploitation of the area of interest or alternatively, by its sale; or

– exploration and/or evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in relation to the area are continuing.

Exploration and evaluation costs accumulated in respect of each particular area of interest include only net direct expenditure.

(k) Trade and Other Payables

Trade payables and other payables are carried at cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and usually paid within 30 days of recognition.

(l) Employee Entitlements

The Group's liability for employee entitlements arising from services rendered by employees to reporting date are recognised in current liabilities. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries, and annual leave which will be settled within one year, have been measured at their nominal amount and include related on-costs.

(m) Share Based Payment Transactions

Share based payments

Under AASB 2 Share Based Payments, the Group must recognise the fair value of options granted to directors, employees and consultants as remuneration as an expense on a pro-rata basis over the vesting period in the statement of profit or loss and other comprehensive income with a corresponding adjustment to equity.

The Group provides benefits to employees (including directors) of the Group in the form of share based payment transactions, whereby employees render services in exchange for shares or rights over shares ("equity-settled transactions"). The cost of these equity-settled transactions with employees (including directors) is measured by reference to fair value at the date they are granted. For options the fair value is determined using a Black-Scholes model.

(n) Loss Per Share

(i) Basic Loss Per Share

Basic loss per share is determined by dividing the operating loss attributable to the equity holder of the Group after income tax by the weighted average number of ordinary shares outstanding during the financial period.

(ii) Diluted Loss Per Share

Diluted loss per share adjusts the figures used in determination of basic earnings per share by taking into account amounts unpaid on ordinary shares and any reduction in earnings per share that will arise from the exercise of options outstanding during the period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Contributed Equity

Issued and paid up capital is recognised at the fair value of the consideration received by the Group. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(p) Income Tax and Other Taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- When the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- When the deductible temporary difference is associated with investments in subsidiaries, associates or interest in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each statement of financial position date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Goods & Services Tax

Revenues, expenses and assets are recognised net of the amount of GST except:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(p) Income Tax and Other Taxes (continued)

- Where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flow arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(q) Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Accounting for capitalised exploration and evaluation expenditure

The Group's accounting policy is stated at Note 2(j). There is some subjectivity involved in the carrying forward as capitalised or writing off to the statement of profit or loss and other comprehensive income exploration and evaluation expenditure, however management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure fairly reflect the prevailing situation.

Share-based payments

The Group measures share-based payments at fair value at the grant date. The fair value is determined using a Black-Scholes model or other valuation technique appropriate for the instrument being valued.

Deferred tax balances

Deferred tax assets in respect of tax losses are not recognised in the financial statements as management considers that it is currently not probable that future taxable profits will be available to utilise those tax losses. Management reviews on a regular basis the future profitability of the Group to consider if tax losses should be recognised and to ensure that any tax losses recognised will be utilised.

Impairment of available-for-sale financial assets

The Company determines an impairment loss on the available-for-sale investments held when there has been a significant or prolonged decline in fair value below original cost. Management exercises judgement in determining what is 'significant' or 'prolonged' by evaluating, among other factors, whether the decline is outside the normal range of volatility in the asset's price, a deterioration in the financial health of the company whose securities are held, or problems with the investee company's operational or financing cash flows.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) Investment and other financial assets

Financial Instruments

The Group has exposure to interest rate risk which is the risk that the Group's financial position will be adversely affected by movements in interest rates. Interest rate risk on cash and short term deposits is not considered to be a material risk due to the short term nature of these financial instruments.

The Group has no monetary foreign currency assets or liabilities.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets.

Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the reporting date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit and/or loss are initially recognised at fair value and transaction costs are expensed in the statement of profit or loss and other comprehensive income. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the statement of profit or loss and other comprehensive income as gains and losses from investment securities.

Subsequent measurement

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

Available-for-sale financial assets are subsequently carried at fair value. Gains on available-for-sale financial assets are recognised in other comprehensive income.

Details on how the fair value of financial instruments is determined is disclosed in Notes 19 and 22.

Impairment

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the statement of profit or loss and other comprehensive income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Provisions

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability.

(t) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(u) Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

3. SEGMENT INFORMATION

Management has determined that the Group has one reportable segment, being mineral exploration in Australia. As the Group is focused on mineral exploration, the Board periodically monitors the Group based on actual versus budgeted exploration expenditure incurred on the Group as a whole. This internal reporting framework is most relevant to assist the Board with making decisions regarding the Group and its ongoing exploration programmes and activities, while also taking into consideration the results of exploration work that has been performed to date.

	Mineral exploration	Total
Year ended 30 June 2018	**$**	**$**
Reconciliation of segment revenue to Group revenue		
Revenue from external sources	–	–
Unallocated revenue		65,874
Total revenue		65,874
Reconciliation of segment result to Group loss		
Segment result	(655,509)	(655,509)
Unallocated		
- Interest revenue		65,874
- Corporate expenses and other costs, net of other income		(805,657)
Loss before tax		(1,395,292)
As at 30 June 2018		
Reconciliation of segment assets to Group assets		–
Segment assets	5,562,567	5,562,567
Intersegment eliminations		
Total assets		5,562,567
Reconciliation of segment liabilities to Group liabilities		
Segment liabilities	(134,892)	(134,892)
Intersegment eliminations		–
Total liabilities		(134,892)

3. SEGMENT INFORMATION (continued)

	Mineral exploration	Total
Year ended 30 June 2017	**$**	**$**
Reconciliation of segment revenue to Group revenue		
Revenue from external sources	–	–
Unallocated revenue		98,480
Total revenue		98,480
Reconciliation of segment result to Group loss		
Segment result	(204,594)	(204,594)
Unallocated		
- Interest revenue		98,480
- Corporate expenses and other costs, net of other income		(279,182)
Loss before tax		(385,296)
As at 30 June 2017		
Reconciliation of segment assets to Group assets		
Segment assets	5,645,847	5,645,847
Intersegment eliminations		–
Total assets		5,645,847
Reconciliation of segment liabilities to Group liabilities		
Segment liabilities	(128,220)	(128,220)
intersegment eliminations		-
Total liabilities		(128,220)

4. REVENUE AND OTHER INCOME

	2018	2017
	$	**$**
Revenue from continuing operations		
Interest	65,874	98,480
Other income		
Gain on disposal of interest in Cardinia JV	–	358,490
Gain on sale of tenements	175,025	–
Other	23,899	10,396
	198,924	368,886

5. TAXATION

		2018	2017
		$	$
(a)	Income tax expense/(benefit)		
	Current tax	–	–
	Deferred tax	–	–
		–	–
	Deferred income tax expense included in income tax expense/ (benefit) comprises:		
	(Decrease)/increase in deferred tax liability	–	–
		–	–
	Opening balance - deferred tax (asset)/ liability	–	–
	Movement for period	–	–
	Closing Balance – deferred tax (asset)/ liability	–	–
(b)	Numerical reconciliation of income tax expense to prima facie tax payable		
	Loss before income tax:	(1,395,292)	(385,296)
	Tax at the Australian tax rate of 27.5% (2017: 27.5%)		
	Tax effect of amounts which are not deductible in calculating taxable income:	(383,705)	(105,956)
	Non-deductible (income)/expenses	(3,483)	737
	Gains recognised in equity	222,007	–
	Share-based payments	136,961	–
	Over provision in prior year	13,019	–
	Tax losses not recognised	15,201	105,219
	Total income tax benefit	–	–

The franking account balance at year end was $nil (2017: $nil).

Jindalee Resources Limited and its wholly owned subsidiaries have not implemented the tax consolidation legislation.

Jindalee Resources Limited has unrecognised deferred tax assets at year-end of $874,507 (2017: $809,623) representing unrecognised tax losses.

In the 2018 income year, the Government enacted a change in the company tax rate to 27.5% for companies which satisfy a base rate entity test. A base rate entity is a company that has an aggregate turnover of less than $25M for the 2018 income year and is carrying on a business. Jindalee Resources Limited satisfies these criteria hence has applied the lower tax rate.

At the date of signing this report a Bill is before the Senate that may alter Jindalee's eligibility to utilise the lower tax rate. The retrospective impact, if enacted, will alter the value of the Company's deferred tax asset. As the Company does not currently recognise a deferred tax asset there will be no financial impact from this legislative change.

6. RECONCILIATION OF LOSS AFTER INCOME TAX TO NET CASH OUTFLOW FROM OPERATING ACTIVITIES

	2018	2017
	$	$
Loss after income tax	(1,395,292)	(385,296)
Exploration expenditure written off	21,490	332,533
Depreciation	18,057	6,140
Gain on sale of interest in Cardinia JV[1]	–	(358,490)
Gain on sale of tenements[2]	(175,025)	–
Share-based payments	498,039	–
Impairment of available for sale assets	258,125	–
Change in operating assets and liabilities during the financial year:		
(Increase)/decrease in trade and other receivables	7,348	13,308
Increase/(decrease) in trade and other payables	8,749	(932)
Increase/(decrease) in provisions	(1,118)	(2,485)
Net cash outflow from operating activities	(759,628)	(395,222)

1 Proceeds of sale satisfied by receipt of shares in Kin Mining NL.

2 Proceeds of Sale satisfied by receipt of Shares in Alloy Minerals Ltd.

7. EARNINGS PER SHARE

	2018	2017
	$	$
Loss used in calculation of basic and diluted loss per share	(1,395,292)	(385,296)
Basic loss per share (cents per share)	(4.00)	(1.10)
Diluted loss per share (cents per share)	(4.00)	(1.10)
Weighted average number of ordinary shares used as the denominator in calculating basic and diluted loss per share.	34,894,775	34,894,775

Options on issue were not considered to be dilutive as their impact would have been to increase the loss per share.

8. DIVIDENDS

As at 30 June 2018 the Company held $66,610 in unclaimed dividends (2017: $73,485).

No dividend has been declared for the year ended 30 June 2018 (2017: nil).

9. CASH AND CASH EQUIVALENTS

	2018	2017
	$	$
Term deposits	2,107,998	3,113,431
Cash at bank	204,085	169,567
	2,312,083	3,282,998

Term deposits include $57,700 deposited as a guarantee. The Group's exposure to interest rate risk is disclosed in Note 19.

10. TRADE AND OTHER RECEIVABLES

	2018	2017
	$	$
Current		
Trade and other receivables	16,159	67,589
Non-current		
Other receivables (deposits)	58,418	138,413

Trade and other receivables are denominated in Australian dollars, and are interest free with settlement terms of between 7 and 30 days. No trade receivables were past due or impaired as at 30 June 2018 (2017: nil).

Due to the short-term nature of these receivables their carrying value is assumed to be their fair value. Please refer to Note 19 for information on credit risk.

11. NON-CURRENT - AVAILABLE-FOR-SALE FINANCIAL ASSETS

	2018	2017
	$	$
Shares in listed corporations		
- Opening balance	1,985,841	1,489,458
- Additions	66,505	370,000
- Revaluation increase	807,301	126,383
- Impairment	(258,125)	–
- Closing balance	2,601,522	1,985,841

The fair value of listed available-for-sale investments has been determined directly by reference to published price quotations in an active market.

At 30 June 2018 the market value of the Group's shareholding in Energy Metals was $2,105,742 (2017: $1,263,446) and Kin Mining NL was $127,500 (2017: $350,000).

Refer to Note 19 for information on Group's exposure to price risk.

12. NON-CURRENT ASSETS - PROPERTY, PLANT AND EQUIPMENT

	2018	2017
	$	$
Plant and equipment - at cost	179,776	201,532
Less: accumulated depreciation	(151,352)	(165,233)
	28,424	36,299
Reconciliation of the carrying amount of property, plant and equipment:		
Carrying amount at beginning of year	36,299	20,424
Additions and disposals (net)	10,182	22,015
Less: depreciation expense for year	(18,057)	(6,140)
Carrying amount at end of year	28,424	36,299
Total property, plant and equipment	28,424	36,299

13. NON-CURRENT ASSETS – EXPLORATION AND EVALUATION EXPENDITURE

	2018	2017
	$	$
Balance at beginning of year	134,707	145,842
Exploration expenditure incurred	457,719	332,908
Disposal of tenements/interest in JV	(24,975)	(11,510)
Exploration expenditure written off	(21,490)	(332,533)
Balance at the end of the year	545,961	134,707

The balance carried forward represents projects in the exploration and evaluation phase.

Ultimate recoupment of exploration expenditure carried forward is dependent on successful development and commercial exploitation, or alternatively, sale of respective areas.

The exploration expenditure written off during the year relates to exploration and evaluation expenditure on tenements surrendered, or to which the Group does not currently have right to tenure.

14. CURRENT LIABILITIES – TRADE AND OTHER PAYABLES

	2018	2017
	$	$
Trade payables	60,663	45,998

Trade and other payables are non-interest bearing and are normally settled on 30 day terms.

The carrying value of trade and other payables are assumed to be the same as their fair values, due to their short term nature.

15. CONTRIBUTED EQUITY

	2018	2017
	$	$
Share capital		
34,894,775 ordinary fully paid shares (2017: 34,894,775)	7,227,254	7,227,254

There were no movements in the ordinary share capital of the Company in the reporting period.

Ordinary shares participate in dividends. On winding up of the Group any proceeds would be distributed to the number of shares held.

At shareholder meetings on a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

16. ACCUMULATED LOSS

	2018	2017
	$	$
Retained earnings at the beginning of the financial year	(3,809,492)	(3,424,196)
Loss attributable to members of the Group	(1,395,292)	(385,296)
Accumulated losses at the end of the financial year	(5,204,784)	(3,809,492)

17. RESERVES

	2018	2017
	$	$
Share-based payment reserve		
Balance at the beginning of the year	1,969,774	1,969,774
Share-based payments	498,039	–
Balance at the end of the year	2,467,813	1,969,774
Available for sale investments revaluations reserve		
Balance at the beginning of year	130,091	2,700
Revaluation on available for sale investments	807,301	127,391
Balance at the end of the year	937,392	130,091
Total reserves	3,405,205	2,099,865

Nature and purpose of the reserves:

(i) The share-based payments reserve is used to recognise the fair value of options issued but not exercised.

(ii) The available-for-sale investment revaluation reserve is used to recognise the change in fair value in available-for-sale investments which are not assessed as impairment.

18. SHARE BASED PAYMENT TRANSACTIONS

Share based payments transactions are recognised at fair value in accordance with AASB 2. The adoption of AASB 2 is equity-neutral for equity-settled transactions. The expense in the year was $498,039 (2017: $Nil).

Employee Share Option Plan

Jindalee Resources Limited Employee Share Option Plan ("ESOP") was established to encourage all eligible directors, executive officers and employees who have been continuously employed by the Group to have a greater involvement in the achievement of the Group's objectives and to provide an incentive to strive to that end by participating in the future growth and prosperity of the Group through share ownership.

The ESOP allows the Group to issue free options to eligible persons. The options can be granted free of charge and are exercisable at a fixed price in accordance with the rules of the ESOP. All options on issue are fully vested at grant date with the exception of some of the options issued to Mr Darvall which are subject to vesting criteria.

Set out below are summaries of options granted under the plan:

Grant Date	Expiry Date	Exercise Price	Balance at the start of the year Number	Granted during the year Number	Exercised during the year Number	Expired during the year Number	Balance at end of the year Number	Vested and exercis-able at end of the year Number
2017								
26/11/2014		30/06/2017	$0.50	2,600,000	–	(2,600,000)	–	–
Weighted average exercise price		$0.50	–	–	–	–	–	–
2018								
22/08/2017	30/06/2022	$0.40 [T1]	–	400,000	–	–	400,000	400,000
22/11/2017	30/06/2022	$0.40 [T2]	–	2,000,000	–	–	2,000,000	2,000,000
22/11/2017	30/06/2022	$0.40 [T3]	–	1,500,000	–	–	1,500,000	1,500,000
22/11/2017	30/06/2022	$0.50 [T4]	–	1,500,000	–	–	1,500,000	–
22/11/2017	30/06/2022	$0.60 [T5]	–	1,500,000	–	–	1,500,000	–
Weighted average exercise price		$0.47	–	–	–	–	–	–

The weighted average remaining contractual life of share options outstanding at the end of the period is 4 years (2017: Nil).

Fair Value of Share Options and Assumptions

The fair value of services received in return for share options granted to directors is measured by reference to the fair value of options granted. The estimate of the fair value of the services is measured based on a Black-Scholes option valuation methodology. This life of the options and early exercise option are built into the option model.

18. SHARE BASED PAYMENT TRANSACTIONS (continued)

The assumptions used for the options valuation are as follows:

	T1	T2	T3	T4	T5
Grant Date	22/08/2017	22/11/2017	22/11/2017	22/11/2017	22/11/2017
Exercise Price	$0.40	$0.40	$0.40	$0.50	$0.60
Expected Life	4.85 years	4.77 years	4.77 years	4.77 years	4.77 years
Share Price at Time of Issue	$0.18	$0.25	$0.25	$0.25	$0.25
Expected Volatility	65%	65%	65%	65%	65%
Dividend Yield	0%	0%	0%	0%	0%
Risk Free Interest Rate	2.20%	2.14%	2.14%	2.14%	2.14%
Option Value	$0.06519	$0.10845	$0.10845	$0.09518	$0.08464

19. FINANCIAL AND CAPITAL RISK MANAGEMENT

(a) Capital Risk Management

The Group manages its capital to ensure that it will be able to continue as a going concern.

In managing its capital, the Group's primary objective is to ensure its continued ability to provide a consistent return for its equity shareholders. In order to achieve this object, the Group seeks to maintain a capital structure that balances risks and returns at an acceptable level and also to maintain a sufficient funding base to enable the Group to meet its working capital and strategic investment needs. In making decisions to adjust its capital structure to achieve these aims, either through new share issues, or sourcing of debt, the Group considers not only its short-term position but also its long-term operational and strategic objectives.

There have been no significant changes to the Group's capital management objectives, policies and processes in the year nor has there been any change in what the Group considers to be its capital.

The capital structure of the Group consists of cash and cash equivalents (Note 9) and equity attributable to equity holders of the Group, comprising issued capital, reserves and retained earnings (accumulated losses) as disclosed in Notes 15, 16 and 17 respectively.

(b) Significant Accounting Policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2 of the financial statements.

19. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(c) Categories of Financial Instruments

	2018 $	2017 $
Financial Assets		
Current		
Cash and cash equivalents	2,312,083	3,282,998
Trade and other receivables	16,159	67,589
Total Current Financial Assets	2,328,242	3,350,587
Non-current		
Available for sale financial assets[1]	2,601,522	1,985,841
Other receivables	58,418	138,413
Total Non-Current Financial Assets	2,659,940	2,124,254
Financial Liabilities		
Current		
Trade and other payables and provision for dividend	127,273	119,483
Total Current Financial Liabilities	127,273	119,483

1 Refer to note 22 for details of fair value of available for sale financial assets

(d) Credit Risk Exposure

As at the reporting date, the Group has no significant concentrations of credit risk. The carrying amount reflected above represents the Group's maximum exposure to credit risk.

(e) Interest Rate Risk Exposure

The Group's exposure to interest rate risk arises from assets bearing variable interest rates. The weighted average interest rate on cash holdings was 2.21% at 30 June 2018 (2017: 2.43%). All other financial assets and liabilities are non-interest bearing. The net fair value of the Group's financial assets and liabilities approximates their carrying value.

The Group invests its surplus funds on deposit with Australian banking financial institutions, namely the National Australia Bank and ANZ Bank. For banks and financial institutions, only independently rated parties with a minimum rating of AA- are accepted.

The table below summarises the impact of an increase/decrease in interest rates received on cash deposits held at year end on the Group's pre-tax profit for the year and on equity. The analysis is based on the assumption that rates increased/decreased proportionally by 10% of the current weighted average interest rate with all other variables held constant.

	2018 $	2017 $
Impact on profit and equity		
Increase of 10%	6,587	9,848
Decrease of -10%	(6,587)	(9,848)

19. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(f) Price Risk

The Group is exposed to equity securities price risk. This arises from investments held by the Group and classified in the statement of financial position as available for sale. The Group is not exposed to commodity price risk.

To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.

The table below summarises the impact of an increase/decrease in prices of securities held at year end on the Group's pre-tax profit for the year and on equity. The analysis is based on the assumption that the prices of all securities increased/decreased by 10% with all other variables held constant.

	2018	2017
	$	$
Impact on profit and equity		
Increase of 10%	260,152	198,584
Decrease of -10%	(260,152)	(198,584)

(g) Liquidity Risk

The liquidity position of the Group is managed to ensure sufficient liquid funds are available to meet our financial commitments in a timely and cost-effective manner. The Board reviews the Group's liquidity position on a regular basis including cash flow statements to determine the forecast liquidity position and maintain appropriate liquidity levels. Note 14 details the Group's current obligations which are all due within 12 months and reflect the actual cash flows given the short term nature of these liabilities.

There are no unused borrowing facilities from any financial institution.

(h) Fair Values

The carrying amounts and estimated fair values of financial assets and financial liabilities are as follows:

Consolidated	2018	2017
	$	$
Financial Assets		
Cash and cash equivalents	2,312,083	3,282,998
Trade and other receivables	16,159	67,589
Non-current deposits	58,418	138,413
Available for sale financial assets	2,601,522	1,985,841
Total Financial Assets	4,988,182	5,474,841
Financial Liabilities		
Trade and other payables and provision for dividend	127,273	119,483
Total Financial Liabilities	127,273	119,483

The methods and assumptions used to estimate the fair value of financial instruments are outlined below:

Cash

The carrying amount is fair value due to the liquid nature of these assets.

19. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(h) Fair Values continued

Receivables/payables

Due to the short-term nature of these financial rights and obligations, their carrying amounts are estimated to represent their fair values. Non-current receivables receive a market rate of interest and are assessed as representing their fair values.

Available-for-sale financial assets

The current bid price as at 30 June 2018 is used to determine the carrying value of the available-for-sale financial assets and any movement is taken to the reserve. An impairment loss of available for sale financial assets is taken to the statement of profit or loss and other comprehensive income.

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

Refer to Note 22 for further details.

20. CONTINGENCIES

Contingent Assets

Tenements Subject to Option

As announced to ASX on 7 March 2018, the Group entered into an option agreement over tenement E53/1962 for payment of $50,000 cash and 8,333,333 shares in Alloy Resources Ltd. The Group maintains a 2% net smelter royalty.

The Group has entered into an agreement with Aldoro Resources Ltd agreeing to vend an 80% interest in non-gold rights over tenements E36/895 and E36/910 into an initial public offering. The Group maintains a 20% free carried position to Decision to Mine. At Decision to Mine the Group can either contribute pro-rata or dilute, with the Group reverting to a 2% gross royalty if the Group's interest falls below 5%. As at 30 June 2018 a $50,000 cash consideration payment has been recorded as a liability in the event the Vendor is unable to meet certain conditions precedent under the agreement.

Contingent Liabilities

Claims of Native Title

To date the Group has been notified by the Native Title Tribunal of native title claims which cover some of the Group's licence holdings. Until further information arises in relation to the claims and its likelihood of success, the Group is unable to assess the likely effect, if any, of the claims.

Performance Bonds and Security Documents

In support of titles granted to or operated by the Group, various securities are submitted to the Department of Mines, Industry Regulation and Safety. These consist of unconditional performance bonds and securities or Form 32 security documents. The Company has no liability outstanding.

There are no other contingencies of the Group at balance date.

21. COMMITMENTS

Capital Commitments

There are no capital expenditure commitments for the Group as at 30 June 2018.

Contractual Commitment

As at 30 June 2018 the Group has a contractual lease agreement for its registered offices which is due to expire on 15 June 2022. The amount contracted on a per year basis but not included as a liability at 30 June 2018 was $98,010.

	2018	2017
	$	$
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:		
< 1 year	98,010	98,010
1-5 years	345,417	443,427
	443,427	541,437

22. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The carrying values of financial assets and liabilities of the Group approximate their fair values. Fair values of financial assets and liabilities have been determined for measurement and / or disclosure purposes.

Fair value hierarchy

The Group classifies assets and liabilities carried at fair value using a fair value hierarchy that reflects the significance of the inputs used in determining that value. The table following analyses financial instruments carried at fair value by the valuation method. The different levels in the hierarchy have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Recurring fair value measurements	Level 1	Level 2	Level 3	Total
	$	$	$	$
30 June 2018				
Available-for-sale financial assets 2,601,522	2,601,522	–	–	2,601,522
Total as at 30 June 2018	2,601,522	–	–	2,601,522
30 June 2017			–	
Available-for-sale financial assets	1,985,841	–		1,985,841
Total as at 30 June 2017	1,985,841	–	–	1,985,841

Due to their short-term nature, the carrying amount of the current receivables and current payables is assumed to approximate their fair value.

23. CONTROLLED ENTITIES

	% Held			State of	Date of	Investment at Cost 2018	2017
Controlled Entity	2018	2017	Class	Incorporation	Incorporation	$	$
Eastmin Pty Limited	100%	100%	Ord	WA	15/04/2005	2	2
HiTec Minerals Pty Ltd	100%	100%	Ord	WA	13/04/2016	100	100
HiTech Minerals Inc.	100%	–	Ord	Nevada, USA	21/02/2018	2	–

The date of acquisition of the controlled entities was on the date of incorporation.

24. RELATED PARTY TRANSACTIONS

(a) Parent entity

The parent entity within the Group is Jindalee Resources Limited.

(b) Subsidiaries

Interests in subsidiaries are set out in Note 23.

(c) Key management personnel compensation

	2018 $	2017 $
Short-term employee benefits	433,471	264,850
Post-employment benefits	29,245	14,221
Share-based payments	471,960	–
	934,676	279,071

Refer to the remuneration report contained within the Directors' Report and Note 18 for further details on share based compensation to key management personnel.

25. REMUNERATION OF AUDITORS

	2018 $	2017 $
Amounts paid or payable at 30 June to the auditors for:		
Audit and review of financial statements	22,023	20,400
Total remuneration for audit and other assurance services	22,023	20,400

26. PARENT ENTITY FINANCIAL INFORMATION

The following details information related to the parent entity, Jindalee Resources Limited, at 30 June 2018 and 30 June 2017.

The information presented here has been prepared using consistent accounting policies as presented in Note 2.

	2018	2017
	$	$
Financial Position		
Assets		
Current assets	1,657,875	2,636,829
Non-current assets	3,622,141	2,708,997
Total assets	5,280,016	5,345,826
Liabilities		
Current liabilities	134,892	128,220
Non-current liabilities	–	–
Total liabilities	134,892	128,220
Net assets	5,145,124	5,217,606
Equity		
Issued capital	7,227,254	7,227,254
Accumulated losses	(5,229,210)	(4,408,488)
Reserves	3,147,080	2,398,838
Total equity	5,145,124	5,217,604
Financial Performance		
Loss for the year	(1,377,846)	(285,352)
Other comprehensive income	807,301	127,391
Total comprehensive loss	(570,545)	(157,961)

No guarantees have been entered into by Jindalee Resources Limited in relation to the debts of its subsidiary companies.

Jindalee Resources Limited had no commitments or contingent liabilities at year end other than those disclosed in Notes 20 and 21.

27. EVENTS OCCURING AFTER THE REPORTING PERIOD

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations, the results of those operations, or the state of affairs of the Group in future financial years.

DIRECTOR'S DECLARATION

In the Directors' opinion:

1. The financial statements, comprising the consolidated statement of profit or loss and other comprehensive income, consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity, accompanying notes, are in accordance with the Corporations Act 2001, and:

   (a) complying with Accounting Standards and the Corporations Regulations 2001 and other mandatory professional reporting requirements; and

   (b) giving a true and fair view of the consolidated entity's financial position as at 30 June 2018 and of its performance for the year ended on that date.

2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

3. The directors have been given the declarations as required by section 295A of the Corporations Act 2001.

4. Note 2(a) confirms that the financial statements also comply with International Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

P Darvall

Managing Director

14th day of September 2018 at Perth, Western Australia.

DECLARATION OF INDEPENDENCE BY PHILLIP MURDOCH TO THE DIRECTORS OF JINDALEE RESOURCES LIMITED

As lead auditor of Jindalee Resources Limited for the year ended 30 June 2018, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Jindalee Resources Limited and the entities it controlled during the period.

Phillip Murdoch

INDEPENDENT AUDITOR'S REPORT

To the members of Jindalee Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Jindalee Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

(i) Giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and

(ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

BDO Audit (WA) Pty Ltd ABN 79 112 284 787 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit (WA) Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation *other than for the acts or omissions of financial services licensees*

Recoverability of exploration and evaluation expenditure

Key audit matter	*How the matter was addressed in our audit*
As disclosed in Note 13 to the Financial Report, the carrying value of capitalised exploration and evaluation expenditure represents a significant asset of the Group. Refer to Note 2 of the Financial Report for a description of the accounting policy and significant judgements applied to capitalised exploration and evaluation expenditure. In accordance with AASB 6 *Exploration for and Evaluation of Mineral Resources* (AASB 6), the recoverability of exploration and evaluation expenditure requires significant judgment by management in determining whether there are any facts or circumstances that exist to suggest that the carrying amount of this asset may exceed its recoverable amount. As a result, this is considered a key audit matter.	Our procedures included, but were not limited to: • Obtaining a schedule of the areas of interest held by the Group and assessing whether the rights to tenure of those areas of interest remained current at balance date; • Considering the status of the ongoing exploration programmes in the respective areas of interest by holding discussions with management, and reviewing the Group's exploration budgets, ASX announcements and directors' minutes; • Considering whether any such areas of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed; • Considering whether any facts or circumstances existed to suggest impairment testing was required; and • Assessing the adequacy of the related disclosures in Notes 2 and 13 to the Financial Report.

Accounting for share-based payments

Key audit matter	*How the matter was addressed in our audit*
During the financial year ended 30 June 2018, the Group issued options to employees and key management personnel, which have been accounted for as share-based payments, as disclosed in Note 18 of the Financial Report. Refer to Note 2 of the Financial Report for a description of the accounting policy and significant judgements applied to these arrangements. Share-based payments are a complex accounting area and due to the complex and judgemental estimates used in determining the fair value of share-based payments. As a result, this is considered a key audit matter.	Our procedures included, but were not limited to: • Reviewing the relevant agreements to obtain an understanding of the contractual nature and terms and conditions of the share-based payment arrangements; • Holding discussions with management to understand the share-based payment transactions in place; • Reviewing management's determination of the fair value of the share-based payments granted, considering the appropriateness of the valuation models used and assessing the valuation inputs; • Involving our valuation specialists to assess the reasonableness of management's volatility inputs; • Assessing the allocation of the share-based payment expense over the relevant vesting period; and • Assessing the adequacy of the related disclosures in Notes 2 and 18 of the Financial Report.

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at:

http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 12 of the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Jindalee Resources Limited, for the year ended 30 June 2018, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*.

AUDITOR'S REPORT

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

BDO Audit (WA) Pty Ltd

BDO

Phillip Murdoch

Director

Perth, 14 September 2018
