- **Certification of the new solar product and the welcoming of a ~\$1m order was above expectations;**
- **Net operating cash outflow reduced by ~93%, to ~\$1.473m as stated in the previous quarter despite the normal quiet December due to the Christmas holiday period;**
- **Order book and Tender book remain strong reflecting the strength in the industry; and**
- **Raised \$3.6m via a Convertible Note issue for working capital.**

Energy Technologies Limited (ASX: EGY or “the Company”), a 100% owner of Bambach Wires and Cables Pty Ltd (Bambach) which manufactures low voltage copper insulated cables, is pleased to release its Quarterly Activities Report and Appendix 4C Quarterly Cash Flow Report for the period ended 31 December 2022 (“2Q FY23”).

During the quarter, Bambach began to exit the issues resulting from COVID that has greatly affected the company for the last two years. The efficiencies gained from the restructure of the factory during this period have resulted in a stronger finish to the quarter and month on month, the sales continue to grow. The company is looking forward to re-commencing the turnaround plan presented before the pandemic commenced.

Pleasingly, the long certification process for our solar cable concluded and the company was able to secure the first solar purchase order totalling \$1m in an industry which has been promoted in the media as having strong growth prospects.

February will see the expansion of multiple shifts to further drive efficiency and contact levels on the factory floor ensuring that margins will grow with the growth in sales.

Bambach CEO, Alf Chown said, *“The company is looking forward to what the 2023 year is going to present to it as it now finds it free of external circumstances. The company’s order book remains at its highest level and the sectors that it deals with are continuing to grow aggressively.”*

ASX Listing Rule 4.7C.3

In accordance with ASX Listing Rule 4.7C, payments made to related parties included in item 6.1 of the Appendix 4C incorporate director’s fees and salary.

8.5 Estimated quarters of funding available (item 8.4 divided by item 8.1)	1.71
<i>Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.</i>	
8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:	
8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No. The company expects to continue to reduce net cash outflow from operating activities, from the current reported net cash outflow, after taking into account the following: - The Factory's ability to work to its optimal capabilities for the first time in two years; - The order book currently standing around all-time highs; - The tender book at similar levels; - The prospect of high margin project work; - Further cost reductions; and - The company is comfortable with the current level of facilities and the ability to raise capital or debt on a need's basis.	
8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: No. The company has already put steps in place to manage its capital needs pursuant to the growth of the business. It raised \$3.6m last quarter by way of convertible notes and as a stepped approach, on a need's basis, increased the working capital facility that it will draw down as sales increase. It further reserves the right to raise additional funds through capital and/or debt on a need's basis.	
8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: Yes, as discussed in Questions 8.6.1 and 8.6.2. Furthermore, the sectors that the company are focused on continue to show strength and the company is comfortable with the longer term outlook pursuant to maintaining a strong tender and order book which has been demonstrated by the recent sales growth through a difficult period in manufacturing. Additional efficiencies at the factory level are being put in place of which the benefit will be evident by June 2023.	
<i>Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.</i>
