Livium completes sale of Bynoe Lithium Project interest

HIGHLIGHTS

- **Livium has finalised the sale of its 30% interest in the Bynoe Lithium Project to Charger Metals NL for cash consideration of A\$500k**
- **The transaction is aligned with Livium's strategic focus on existing operations and provides balance sheet flexibility for key growth initiatives**

Livium Ltd (ASX: LIT) ("**Livium**" or the "**Company**") is pleased to announce the successful completion of the sale of its remaining 30% interest in the Bynoe Lithium Project to Charger Metals NL (ASX: CHR) ("**Charger Metals**") for cash consideration of A\$500k plus GST.

As previously announced on 7 November 2024, Charger Metals exercised its pre-emptive rights to acquire Livium's remaining interest in the Bynoe Lithium Project. The transaction was subject to a number of conditions, which have all been satisfied.

Authorised for release by the Managing Director / CEO of Livium.

Forward-looking statements

This announcement contains forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties that it is beyond the Company's ability to control or predict and which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Investors should be aware that past performance should not be relied upon as being indicative of future performance.

About Livium

Livium (previously Lithium Australia) is aiming to lead and enable the global transition to sustainable lithium production. The Company operates Australia's market leading battery recycler, produces critical battery material lithium ferro phosphate (LFP), and has developed a patented lithium extraction technology. Livium's revenue-generating recycling business and technologies are well-placed to capitalise on growing global lithium-ion battery demand and provides diversification benefits to global supply chains.
