

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED | (ASX:CPV | OTCQX:CVUEF)

ClearVue Continues Focus on Driving Global Commercialisation

ClearVue engaged Kidder Williams in July 2025 to review the Company's structure and strategic growth options with a focus on global commercialisation. The program has reached its conclusion after the two-month engagement.

23 September 2025 – Perth, Australia – ClearVue Technologies Limited (ASX:CPV) (ClearVue or the Company) today announced its engagement with Kidder Williams Limited ("Kidder Williams"), entered into on 20 July 2025, concluded after the program delivered on the goals set forth in the agreement.

During the engagement, Kidder Williams provided ClearVue with valuable input as the Company undertook a business review and assessed its capital management options. ClearVue has taken their recommendations into account including a focus on identifying industry executives to join the ClearVue Board. In addition, the company has already made significant shifts in Company leadership. The Company anticipates further updates on board appointments in the near term, with one appointment to replace Victor Rosenberg, following his previously announced retirement at the upcoming Annual General Meeting (AGM).

ClearVue thanks Kidder Williams for their contribution and support as the company undertook its leadership and board revitalisation program and additionally instituted a program to align its investments, spending and commercialisation efforts with a focus on driving long term shareholder value.

The ClearVue leadership and board appreciate the dedication and guidance the team at Kidder Williams has provided over the past two months. Their contribution will support ClearVue's continued commercialisation endeavours and goals.

Authorised by the Board of ClearVue Technologies Limited.

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at www.clearvuepv.com.
