

ASX:WCE ANNOUNCEMENT

1 October 2025

DATE OF AGM AND CLOSING DATE FOR DIRECTOR NOMINATIONS

West Coast Silver Limited (ASX: WCE) ("West Coast Silver" or the "Company") advises Shareholders that its Annual General Meeting ("AGM") is proposed to be held on Thursday, 20 November 2025.

An item of business at the AGM will be the election and appointment of directors. In accordance with ASX Listing Rule 14.3 and the Company's Constitution, nominations for the election of new Directors must be received no later than 5:00pm (WST) on Wednesday, 8 October 2025 at the Company's registered office or via email to the Company Secretary, Mindy Ku at mku@corpbservices.com.

Shareholders will be advised of further details regarding the AGM in a separate Notice of Meeting.

This ASX announcement has been authorised for release by the Board of Directors of West Coast Silver Limited. For further information, please contact:

The Elizabeth Hill Project

Elizabeth Hill is one of Australia's high-grade silver projects and has a proven production history outlined below:

- **High grades enabled low processing tonnes:** 1.2Moz of silver was produced from just 16,830t of ore at a head grade of 2,194g/t (70.5 oz/t Ag)[1].
- **Previous mining operation ceased in 2000:** because of low silver prices (US$5)[2]
- **Simplistic historical processing technique: native silver** was recovered via **low-cost** gravity separation techniques.
- **Untapped potential remains** in ground with deposit open at depth and recent consolidation of land package offers potential to discover more Elizabeth Hill style deposits.
- **Tier 1 Mining Jurisdiction located on a mining lease** with potential processing option at the nearby Radio Hill site.

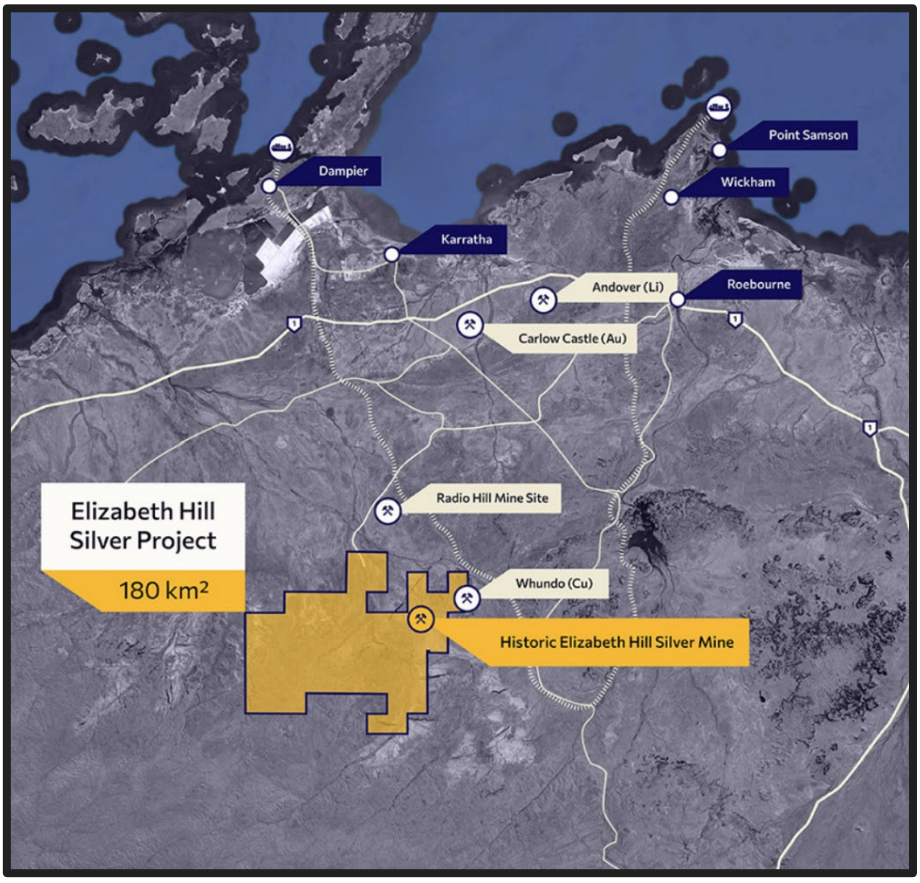

Figure 1 – Location of Project Combined Tenements

Through the consolidation of the surrounding land packages into a single contiguous 180km^2 package significant exploration and growth potential exists both near mine and regionally.

The land package holds a significant portion of the Munni Munni fault system which is considered prospective for Elizabeth Hill look-a-like silver deposits.
