LITCHFIELD
MINERALS LIMITED

ASX Announcement 1 October 2025

Operational Update – Drilling Program Timing

Litchfield Minerals Limited (ASX: LMS) ("Litchfield" or "the Company") advises that the drilling program scheduled to commence on **Wednesday, 1 October 2025** was delayed due to a mechanical failure on the contracted rig. However, to quickly counter this event, leveraging the Company's strong industry relationships, an alternative rig has been secured at short very short notice and is **expected In Alice Springs on Friday, 3 October 2025.** Drilling is now planned to commence over the weekend.

In addition, to recover the few days of lost time, Litchfield has worked with its contractor to mobilise the originally scheduled rig to site within the next 7 days, resulting in two rigs operating in parallel. This approach is expected to more than make up the schedule, importantly, in a cost-effective manner.

The Company wishes to reassure shareholders and the market that the brief delay is being managed very effectively and appreciates their understanding.

The announcement has been authorised for release by the Board.

About Litchfield Minerals

Litchfield Minerals is a critical mineral explorer, primarily searching for base metals and uranium out of the Northern Territory of Australia. Our mission is to be a pioneering copper exploration company committed to delivering cost-effective, innovative and sustainable exploration solutions. We aim to unlock the full potential of copper and other mineral resources while minimising environmental impact, ensuring the longevity and affordability of this essential metal for future generations. We are dedicated to involving cutting-edge technology, responsible practices and stakeholder collaboration drives us to continuously redefine the industry standards and deliver value to our investors, communities and the world.
