DISCLAIMER

Competent Person Statement – Exploration Results and Targets

The information in this presentation that relates to Exploration Results is based on and fairly represents information and supporting documentation prepared by Ms Gemma Lee who is employed by Albright Metals Limited as Principal Geologist. Ms Lee is a member of the Australian Institute of Geoscientists. Ms Lee has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Specifically, Ms Lee consents to the inclusion in this presentation of the matters based on their information in the form and context in which they appear.

Competent Person Statement – Mineral Resource

The information in this presentation that relates to Mineral Resources is based on and fairly represents information compiled by Mr Lauritz Barnes, (Consultant with Trepanier) and Ms Gemma Lee (Principal Geologist – Albright Metals Limited). Mr Barnes is a member of the Australasian Institute of Mining and Metallurgy (AusIMM) and both Mr Barnes and Ms Lee are members of the Australian Institute of Geoscientists (AIG). Both have sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Specifically, Mr Barnes is the Competent Person for the estimation and Ms Lee is the Competent Person for the database, geological model and site visits. Mr Barnes and Ms Lee consent to the inclusion in this announcement of the matters based on their information in the form and context in which they appear.

The Company confirms that it is not aware of any new information or data that materially affects the information included in this presentation and that all material assumptions underpinning any previously reported Exploration Results and Mineral Resources continue to apply and have not materially changed.

Forward Looking Statements

This presentation is for information purposes only. Neither this document nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction. This Presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in such jurisdiction. This document does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this representation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments. No responsibility for any errors or omissions from this document arising out of negligence or otherwise is accepted.

The presentation contains "forward-looking information" within the meaning of applicable securities legislation. Forward-looking information may include, but is not limited to, information with respect to the future financial and operating performance of the Company, its affiliates and subsidiaries, potential investments, the estimation of mineral reserves and mineral resources, realisation of mineral reserves and resource estimates, costs and timing of development of the Company's projects, costs and timing of future exploration, timing and receipt of approvals, consents and permits under applicable legislation, results of future exploration and drilling and adequacy of financial resources.

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management of the Company made in light of their experience and their perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. The Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

GOLDEN PIKE PROJECT – Develop and explore for gold

Vail Road has been identified as a high-grade gold deposit

Are there other significant deposits across the claim?

Similar targets on untested areas of the claim are indicated by soil and boulder anomalisms

ASX:ABR

EXTENSIONAL & INFILL AT VAIL ROAD GOLD DEPOSIT

- Vail Road drilling used a core orientation tool to provide additional structural data.
- Most of the declared Mineral Resource is in the upper section of the deposit.
- Zones of high potential for infill and extensional drilling identified.

ALBRIGHT BROOK GOLD & ANTIMONY

Albright Brook Prospect is an emerging gold opportunity

Best 2026 Gold Intercepts:

AB-26-01 – **37.05m** at **1.12 g/t Au** from 60.95m
including: **2.35m** at **4.76 g/t Au** from 77.10m
and including: **0.70m** at **28.80 g/t Au** from 85.55m

AB-26-02 – **13.20m** at **1.14 g/t Au** from 62.30m
including: **1.55m** at **2.19 g/t Au** from 63.70m
and including: **1.30m** at **3.70 g/t Au** from 69.60m

Best 2026 Antimony Intercept:

AB-26-02 – **2.46m** at **0.50% Sb** and **1.72 g/t Au** from 62.3m
including: **0.36m** at **3.23% Sb** and **2.81 g/t Au** from 64.4m

GRANT BROOK GOLD TREND

Grant Brook is an emerging gold opportunity

- Analysis of historic work together with recent results indicate a trend of gold occurrences over a 1.5km strike distance.
- Rock chips acquired by Albright Metals in 2026 have identified geochemistry similar to Vail Road high-grade gold deposit.
- Grant Brook Central includes a 150m long ridgeline with outcropping quartz veining with gold and copper mineralisation.

CRITICAL MINERALS POTENTIAL

Antimony and more...

- Drilling undertaken at Albright Brook Prospect and Bond Road Prospect.
- Encouraging antimony mineralisation in drill core has informed the next phase of antimony exploration.
- Additional antimony prospects have been identified.
- Historic soil sampling demonstrates antimony and molybdenum prospectivity.
- Rock chip samples acquired by Albright Metals in 2026 highlight additional base metals and silver prospectivity.
- Daley Brook Prospect identified for potential copper and molybdenum.

GOLDEN PIKE PROJECT FOOTPRINT EXPANSION

- Claims to the north and south of the Golden Pike Project secured.
- Multi-metallic prospectivity in addition to gold and antimony.

ASX:ABR

NEW PROJECT – WINDING HILL

- Additional claim acquired north of Fredericton.
- Very little historical exploration work.
- Potential for gold, antimony, copper and silver.
- Prospectivity highlighted by recent Government of New Brunswick regional till sampling program.

ALBRIGHT METALS HAS AN EXCITING GROWTH STORY

- 1** Develop Vail Road high-grade, near surface gold deposit
- 2** Explore for more high-grade gold across existing and new tenements
- 3** Explore for critical metals including antimony, molybdenum and copper
