Price Monitoring Extension

*** Please note that due to low readership, RNS is considering the possible decommissioning of Price Monitoring Extension announcements in the near future. We would welcome any feedback you may have about these announcements; in particular, whether you find them valuable and would like to continue receiving them via RNS. Please send your feedback to rns@lseg.com ***.

The auction call period has been extended in this security by 5 minutes.

Auction call extensions give London Stock Exchange electronic order book users a further opportunity to review the prices and sizes of orders entered in an individual security's auction call before the execution occurs. A price monitoring extension is activated when the matching process would have otherwise resulted in an execution price that is a pre-determined percentage above or below the price of the most recent automated execution today.
