Brockham Update

Alba Mineral Resources plc (AIM: Alba), the diversified mineral exploration and development company, notes the announcement this morning by Angus Energy Plc, the operator of the Brockham Oil Field under Production Licence ("PL") 235 ("Angus" or the "Operator"), as follows:

"Angus Energy is pleased to announce that after consideration of the recent results of the Brockham work programme, preparatory operations for the second stage will commence in the week of 17th June 2019."

"The further preparatory work aims to ensure the borehole is in optimum condition for testing, and to give the best possible communication between the well and the fracture system in the formation. Once this has been completed then, subject to agreement of partners, well testing can commence to ascertain whether commercial hydrocarbon flows can be achieved from the BRX4Z well as envisaged per our timetable of 3 April."

Alba owns a direct 5 per cent interest in PL 235.
