OptiBiotix Health plc
("OptiBiotix")

Appointment of goetzpartners securities Limited

OptiBiotix Health plc (AIM: OPTI), a life sciences business developing compounds to tackle obesity, high cholesterol, diabetes and skin care, announces the appointment of goetzpartners securities Limited ("GPSL"). GPSL will provide financial advisory services to OptiBiotix Health Plc including sector specific equity research and investor support services. These services will be provided in addition to the services provided by OptiBiotix's current broker, finnCap, extending the companies reach into European investment markets.

GPSL is a member of the goetzpartners group and a leading pan-European investment banking and corporate broking firm dedicated to the healthcare sector. GPSL bring together a wide range of investment, research, and sector expertise, with the group's global footprint, to advance the interests of clients in the healthcare sector.

Stephen O'Hara, CEO of OptiBiotix, commented: *"We are pleased to announce the appointment of goetzpartners securities Limited. The appointment is intended to improve international institutional and family funds buy side access, particularly from within Europe, and to provide expert research analysis which can be distributed to specialist institutional investors around the world. With OptiBiotix's products now being commercialised in over 30 countries around the world this is a strategic step to broaden the Company's investors base with the support of a leading pan-European investment bank and research company specialising in heathcare and technology."*

This announcement contains inside information for the purposes of Article 7 of EU Regulation 596/2014.

About OptiBiotix - www.optibiotix.com
OptiBiotix Health plc (AIM: OPTI), which was formed in March 2012, brings science to the development of compounds which modify the human microbiome - the collective genome of the microbes in the body - in order to prevent and manage human disease and promote wellness.

OptiBiotix has an extensive R&D program working with leading academics in the development of microbial strains, compounds, and formulations which are used as active ingredients and supplements. More than twenty international food and healthcare supplement companies have signed agreements with OptiBiotix to incorporate their human microbiome modulators into a wide range of food products and drinks.

OptiBiotix is also developing its own range of consumer supplements and health products. The Company's current areas of focus include obesity, cardiovascular health, and diabetes.
