Aurrigo International plc

("Aurrigo" or the "company")

Update on Partnership with Aviation Solutions B. V. (part of Schiphol Group)

Aviation Solutions go-to-market partnership formally approved following Amsterdam Airport Schiphol validation

Aurrigo International plc (AIM: AURR), a leading international provider of transport technology solutions, is pleased to announce that its Auto-DollyTug® and Auto-Sim® solutions have been formally approved for recommendation to Aviation Solutions' network of 60+ airports.

Aviation Solutions, a department within Royal Schiphol Group, focuses on commercialising innovative technologies that have successfully passed rigorous testing at Amsterdam Airport Schiphol.

The partnership between the two companies was initially announced in April 2024 with the intention to roll out Aurrigo's autonomous solutions. With testing under the Royal Schiphol Group contract now validated, the work begins to commercialise this proven technology to airports worldwide.

Marcel Stroop, Director of Go-to-Market, Aviation Solutions, commented: *"Aurrigo International is a true front-runner in the field of autonomous ground handling technology. Our partnership marks an exciting milestone in our effort to bring proven innovations from Amsterdam Airport Schiphol to airports across the world."*

"We collaborate with partners and airports to innovate, faster. To be able to provide airports solutions we guarantee will work with a 100% confidence level. I'm very excited that Aurrigo is now also part of that movement."

David Keene, CEO of Aurrigo International, commented: *"We are delighted to be able to announce this endorsement from Aviation Solutions, following the successful Auto-Dolly Tug® trials at Schiphol. This confirms the growing demand in the aviation industry for our smart airside solutions and further strengthens our go-to-market strategy with an incentivised partner who has access to a wide group of well-informed, supportive aviation customers."*

About Aviation Solutions

Aviation Solutions aims to advance collaboration in the aviation industry and share proven successes with other airports to speed up innovation, guarantee faster implementation and provide shared learnings. It does this in three ways:

1. Making proven products at Amsterdam Airport Schiphol available to the world
2. Develop innovative partnerships to address priority areas
3. Support businesses that focus on a more sustainable aviation industry

Notes to Editors:

Aurrigo International plc is an international designer and developer of fully integrated smart airside solutions for the aviation industry, including automated vehicles, systems and software.

The Group's proprietary, award-winning autonomous technology and secure management system is supporting some of the world's leading airports. Customers choose to partner with Aurrigo to transform their baggage and cargo handling operations, improving safety, operational efficiencies and meeting sustainability targets, while navigating growing passenger volumes, rising costs and increasing labour shortages.

Headquartered in Coventry, UK with offices in Singapore and Ottawa, the Group has a 30+ year heritage designing and supplying automotive vehicle manufacturers with highly advanced, innovative product and system solutions. For more information, please visit the Group's website at www.aurrigo.com.
