28 April 2026

Great Southern Copper plc
("GSC" or the "Company")

Exercise of Warrants

Great Southern Copper plc (LSE: GSCU), the company focused on copper-gold and silver exploration in Chile, announces that warrant holders have exercised their right to subscribe for 4,166,625 new ordinary shares of 1p each in capital of the Company ("Ordinary Shares") at an exercise price of 2.4p per share for gross proceeds of £99,999.

Admission to Trading and Total Voting Rights

Application for admission has been made and the admission of these 4,166,625 new Ordinary Shares to trading on the Main Market of the London Stock Exchange plc, which is expected to become effective on or around 8.00am on 5 May 2026 ("Admission").

Following Admission, the total number of issued shares and the total number of voting rights in the Company will be 751,751,194. This figure should be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Financial Conduct Authority's Disclosure Guidance and Transparency Rules.

About Great Southern Copper

Great Southern Copper PLC is a UK-listed mineral exploration company focused on the discovery of copper-gold-silver deposits in Chile. The Company has the option to acquire rights to 100% of two projects in the under-explored coastal belt of Chile that are prospective for large scale copper-gold deposits. Chile is a globally significant mining jurisdiction being the world's largest copper producer and the second-largest producer of lithium.

The two early-stage Cu-Au projects comprise the Especularita and San Lorenzo Projects, both located in the coastal metallogenic belt of Chile which hosts significant copper mines and deposits, including Teck's Carmen de Andacollo copper mine, and boasts excellent access to infrastructure such as roads, power and ports. Significant historical small-scale and artisanal workings for both copper and gold are readily evident in both exploration project areas.

Great Southern Copper is strategically positioned to support the global market for copper - a critical battery metal in the clean energy transition around the world. The Company is actively engaged in exploration and evaluation work programmes targeting both large tonnage, low to medium grade Cu-Au deposits as well as high-grade Cu-Au deposits.
