30 April 2026

ALTONA RARE EARTHS PLC

("Altona" or the "Company")

NOTIFICATION OF ADMISSION TO TRADING
AND TOTAL VOTING RIGHTS

Altona (LSE: REE), a resource exploration and development company focused on critical raw materials in Africa, announces today the following information in accordance with The Public Offers and Admissions to Trading Regulations 2024 (POATRs) PRM 1.6.4R.

1	**Details of the issuer**	
a)	Name	ALTONA RARE EARTHS PLC
b)	LEI	2138002A5GU9BFS2I491
2	**Details of the transferable securities admitted to trading**	
a)	Name, type and identification code	Ordinary Shares; ISIN: GB00BFZNKV91
b)	Regulated market	London Stock Exchange - Main Market
c)	Number of further securities admitted	16,600,001
d)	Total number of securities in issue following admission	445,666,113
e)	Fungibility	Fully fungible with existing Ordinary Shares
3	**Admission details**	
a)	Date of admission	13 April 2026 - 27 April 2026
b)	Prospectus information	Prospectus: N/A Supplementary: N/A Company's website: https://altonare.com/
c)	Coverage of notification	All admissions between 13 April 2026 to 30 April 2026

Total Voting Rights (TVR)

In accordance with Disclosure Guidance and Transparency Rule 5.6.1, the Company would like to notify the market of the following:

i) As at the 30 April 2026, the Company's issued share capital consists of 445,666,113 ordinary shares of £0.01 each; and

ii) The Company does not hold any shares in treasury.

Therefore, the total number of voting rights in the Company will be 445,666,113.

This figure may be used by shareholders as the denominator for the calculations by which they will determine whether they are required to notify their interest in, or a change to their interest in, the Company under the Disclosure Guidance and Transparency Rules.

About Altona Rare Earths Plc

Altona Rare Earths Plc (ticker: REE) is a London Main Market-listed exploration and development company focused on unlocking the value of critical raw materials across Africa. The Company is pursuing a diversified strategy, targeting assets with potential for near-term monetisation alongside long-term growth.

The multi-commodity Monte Muambe Project in northwest Mozambique is a highly prospective tenement hosting rare earths, fluorspar, and gallium mineralisation. Since acquiring the project in June 2021, Altona has drilled over 7,800 metres, delivering a maiden JORC Mineral Resource Estimate of 13.6Mt at 2.42% TREO, secured a 25-year mining licence (granted December 2024), and published a Competent Person Report and scoping study for the rare earths component of the project (October 2023). The Company has received a US$ 1.875 million grant from USTDA to advance the rare earths project through the prefeasibility stage.

In parallel, Altona is progressing plans to fast-track the development of high-grade fluorspar veins identified along the western and southern margins of Monte Muambe, with a targeted production of 50,000 tonnes per annum of acid-grade fluorspar over a minimum 12-year mine life. Acid-grade fluorspar is a key input in a wide range of applications, including hydrofluoric acid, lithium battery electrolyte production, and nuclear fuel refining, placing Altona in a strong position to supply this critical material.

The discovery of gallium mineralisation, with grades up to 550 g/t identified to date, adds further value to Monte Muambe. The Company has established that gallium will be concentrated in fluorspar production tailings and is assessing its possible recovery as a by-product of fluorspar.

Altona's diversified portfolio also includes the Sesana Copper-Silver Project in Botswana, strategically located just 25 km from MMG's Khoemacau Zone 5 copper-silver mine. Situated on a recognised regional contact zone for copper deposits, Sesana represents a compelling exploration opportunity aligned with Altona's growth strategy.

With a unique combination of critical raw materials projects, Altona is well positioned to contribute to the global supply of highly sought commodities essential for clean energy, high technology, defence and industrial applications.

The Company and the Board remain actively focused on identifying and evaluating additional projects that align with our investment profile and strategic objectives, leveraging our extensive network and combined industry experience to uncover compelling opportunities that can drive long-term growth.
