Notes to Editors:

Aurrigo International plc (AURR LN) is a UK based developer and producer of autonomy software, fully autonomous vehicles and mobile robotics platforms. Aurrigo's first application is autonomous airport Ground Support Equipment (GSE) designed to move cargo, baggage and people between terminals, baggage halls and airside next to aircraft. Thus, transforming operations that are manually intensive improving safety, operational efficiencies and meeting sustainability targets, while navigating growing passenger volumes, rising costs and increasing labour shortages.

Aurrigo's autonomy software and controls, designed to operate in safety, security sensitive and harsh environments, have an opportunity to transform airside logistics and bring autonomy to wider markets.

Headquartered in Coventry, UK with offices in Singapore, Cincinnati and Ottawa, the Group has a 33-year heritage designing and supplying automotive vehicle OEM's with highly advanced, innovative product and system solutions.
