MTI Wireless Edge Ltd

("MTI" or the "Group")

Multiple Contract Wins Worth c. US$4m

Strong period of demand with orders received across all three divisions with deliveries expected within the next nine months

MTI Wireless Edge Ltd (AIM: MWE), the technology group focused on comprehensive communication and radio frequency solutions across multiple sectors, is pleased to announce an above average period of demand with multiple orders recently received, together worth approximately US$4m.

The new contracts include:

i) an order totaling US$0.6m for MTI Summit, for the supply of power amplifier solutions to an Israeli defence company;
ii) three orders totaling US$2.1m for PSK to supply military data room and electronic detection solutions and an antenna installation project to two Israeli defence companies and a further US$0.3m service order for the Israeli Ministry of Defence;
iii) four orders totaling US$0.5m for commercial antennas for both RFID and 5G Backhaul, predominantly for the Company's ABS® solution; and
iv) a US$0.6m contract for Mottech for delivery of its landscape irrigation solution to a customer in the Arabian Gulf.

All orders are expected to be delivered by the end of Q1 2027 with the majority being delivered in H2 2026.

MTI's CEO, Moni Borovitz, commented:

"We have experienced another wave of recent orders. In the first half we saw increased demand from the defence sector and in this latest period demand is spread across all three of our divisions. Pleasingly, we are converting a higher proportion of contracts on open bid into order intake. The customers behind this new group of orders are keen to receive the products and solutions required within prompt timeframes, which significantly enhances our order book for FY26 and FY27 and supports the overall growth of the business."

About MTI Wireless Edge Ltd. ("MTI")

Headquartered in Israel, MTI is a technology group focused on comprehensive communication and radio frequency solutions across multiple sectors through three core divisions:

Antenna division

MTI is a world leader in the design, development and production of high quality, state-of-the-art, and cost-effective antenna solutions including Smart Antennas, MIMO Antennas and Dual Polarity Antennas for wireless applications. MTI supplies antennas for both military and commercial markets from 100 KHz to 174 GHz.

Internationally recognized as a producer of commercial off-the-shelf and custom-developed antenna solutions in a broad frequency range, MTI addresses both commercial and military applications.

MTI supplies directional and omnidirectional antennas for outdoor and indoor deployments, including smart antennas for 5G backhaul, Broadband access, public safety, RFID, base station and terminals for the utility market.

Military applications include a wide range of broadband, tactical and specialized communication antennas, antenna systems and DF arrays installed on numerous airborne, ground and naval, including submarine, platforms worldwide.

Water Control & Management division

Via its subsidiary, Mottech Water Solutions Ltd ("Mottech"), MTI provides high-end remote control and monitoring solutions for water and irrigation applications based on Motorola's IRRInet state-of-the-art control, monitoring and communication technologies.

As Motorola's global prime-distributor, Mottech serves its customers worldwide through its international subsidiaries and a global network of local distributors and representatives. With over 25 years of experience in providing customers with irrigation remote control and management, Mottech's solutions ensure constant, reliable and accurate water usage, improve crop quality and yield while reducing operational and maintenance costs providing fast ROI while helping sustain the environment. Mottech's activities are focused in the market segments of agriculture, water distribution, municipal and commercial landscape as well as wastewater and storm-water reuse.

Distribution & Professional Consulting Services division

Via its subsidiary, MTI Summit Electronics Ltd., MTI offers consulting, representation and marketing services to foreign companies in the field of RF and Microwave solutions and applications including engineering services (including design and integration) in the field of aerostat systems and the ongoing operation of Platform subsystems, SIGINT, RADAR, communication and observation systems which is performed by the Company. It also specializes in the development, manufacture and integration of communication systems and advanced monitoring and control systems for the Government and defence industry market.
