CleanTech Lithium PLC ("CleanTech Lithium", "CTL" or the "Company")
Exercise of Warrants and Total Voting Rights

CleanTech Lithium PLC (AIM: CTL), an exploration and development company advancing sustainable lithium projects in Chile, announces that it has received notice from a warrant holder to exercise warrants over 1,000,000 new ordinary shares of £0.02 each in the capital of the Company (the "Warrant Shares") at an exercise price of £0.06 per Warrant Share, raising gross proceeds of £60,000. The warrants were issued in connection with the placing announced on 11 August 2025.

Admission and Total Voting Rights

Application has been made to the London Stock Exchange for the 1,000,000 Warrant Shares to be admitted to trading on AIM, with admission expected to occur on or around 03 November 2026. The Warrant Shares, when issued, will rank pari passu with the existing ordinary shares in the Company. Following admission, the Company's issued share capital will consist of 366,191,716 Ordinary Shares, each with voting right. From admission this figure may be used by shareholders as the denominator for calculations by which they will determine if they are required to notify their interest in, or a change to their interest in CleanTech Lithium under the FCA's Disclosure Guidance and Transparency Rules.

Notes

CleanTech Lithium (AIM:CTL, Frankfurt:T2N) is an exploration and development company advancing lithium projects in Chile for the clean energy transition. CleanTech Lithium has two key lithium projects in Chile, Laguna Verde and Viento Andino, and exploration stage project in Arenas Blancas (Salar de Atacama), located in the lithium triangle, a leading centre for battery grade lithium production. CleanTech Lithium and the Mining Ministry in Chile have agreed the contractual terms for the Special Lithium Operating Contract (“CEOL”) for Laguna Verde, subject to final ratification.

CleanTech Lithium is committed to utilising Direct Lithium Extraction ("DLE") with reinjection of spent brine. Direct Lithium Extraction is a transformative technology which removes lithium from brine with higher recoveries, short development lead times and no extensive evaporation pond construction.
